Official Gives Figures to Show Unfairness.

CHICAGO, March 7.—The western railroads opened their attack on the Federal Railroad Labor Board's present wage scale today in the nation-wide wage hearing by introducing industrial wage figures from twenty-eight States in all of which it was asserted, wages for similar work were generally lower than railroad wages. The lower wages asked, according to J. W. Higgins, representing the western roads, are 50 to 100 per cent higher than the wage scale of 1915, and 20 to 70 per cent higher than in 1917.

**COVERS FIFTY STATES.**

Individual exhibits covering fifteen Western States were presented by railroad representatives elaborating on the general conditions shown by Higgins in his presentation. The entire survey showed that of 21,293 employees in numerous other industries, 77.73 per cent were receiving lower wages in December, 1921, than the railroads are paying for similar work.

The statement said that in Arizona, Arkansas, Kentucky, Michigan, Mississippi and Tennessee, more than 90 per cent of the employees in other industries are paid less than railroad employees. In California, Minnesota, Nebraska, Texas, Utah and Wisconsin, according to the statement, from 10 to 40 per cent are paid less than

Tacoma School Ruling is Ordered Suspended by Superintendent.

(BY A. P. MURPHY WIRE.)

TACOMA, March 7.—Several thousand school pupils, whose parents refused to permit them to be vaccinated against smallpox, will go to school again tomorrow despite the ruling of the city health department last month that all unvaccinated pupils should be barred after March 7. Supt. W. F. Geiger today ordered all school principals to suspend the order and to admit all pupils.

"The smallpox menace is now negligible," Geiger said.

There are only four States in the West, Montana, Nevada, Oregon and Wyoming, where less than 50 per cent of the employees receive lower wages than that paid by the railroads, says the statement. "Discrepancies were found also in outside industries in principal cities," Higgins told the board. "In Butte, Mont., common labor receives \$1 to 60 cents an hour, while in St. Paul and Minneapolis it runs from 21 to 35 cents. In Chicago and Omaha, wages for common labor run from 18 to 25 cents an hour. Kansas City pays 31 to 40 cents and St. Louis from 21 to 40 cents.

In Little Rock and Memphis common labor gets 11 to 20 cents an hour and in New Orleans, from 11 to 35 cents an hour. In San Antonio, the range is 21 to 40 cents; Dallas and El Paso, 18 to 25; Fort Worth and Galveston, 18 to 30 cents; while in the mountain region, it runs from 18 to 40 cents in Denver and 41 to 45 cents in Salt Lake City.

Higgins said that while the roads wish the wages paid to be fair and adequate, it was not believed that the transportation act intended a flat rate to prevail throughout the country, and in addition to citing the statistics showing the difference in wages paid common labor in principal cities of the West, presented data to show that wages for metal crafts vary as to location.

He also stated that \$5.50 per cent of the men in the metal crafts in other industries receive lower wages than men doing the same work for railroads. Specific instances given brought out that the men receive from 41 to 45 cents an hour, whereas the railroads for the same work pay the maximum wages for a mechanic, which are higher.

**RECEIVER NAMED FOR CHICAGO BROKERS.**

LIABILITIES OF FIRM DRABING IN CONTRACTS NEAR \$5,000,000.

(RECEIVER NAMED.)

CHICAGO, March 7.—"Getting Ahead," that attractive pamphlet which Kriebel and Company, investment brokers, 137 South La Salle street, and with branches in Minneapolis, St. Paul, Duluth and Detroit, advertised in the street cars, did not avert a run on the company and it's going into the hands of a receiver here today.

The liabilities are estimated at \$4,500,000 to \$5,000,000 and the assets at \$3,000,000 to \$4,000,000. The company was a member of any stock exchange. It operated a system of contracts, for which it charged a fee of ten per cent. When a customer paid an initial deposit, the company bought for him a group of industrial and railroad securities, turning them over to the customer when the price in twenty installments had been repaid to the company.

The receiver was appointed in involuntary bankruptcy proceedings in which the total claims advanced by creditors, most of which was an advertising agency, amounted to \$10,000. W. W. Wheelock was appointed receiver by Federal Judge Carpenter, who fixed his bond at \$100,000. Counsel for the company blamed the crashes in New York, which he said had scared investors away from his clients, who had paid out \$900,000 in the last sixty days under options contained in contracts with customers.

**GOULD'S MIND SOUND, IS RULING OF COURT.**

FACT THAT MAN CUT OFF DAUGHTER IN WILL NOT PROOF, DECISION.

(BY A. P. MURPHY WIRE.)

SAN FRANCISCO, March 7.—The fact that the late Frank H. Gould, formerly United States Surveyor-General for California, and well-known in Democratic politics, cut off his daughter Doris with a legacy of \$1 in a will written the day her mother died, a divorce based partly on her testimony against him, is not sufficient evidence to prove that he was of unsound mind at the time, the State Supreme Court held today.

Its decision reversed that of the Superior Court of San Francisco, where Gould's widow and Miss Doris Gould, who only received \$1 apiece, were able to upset the will on the ground that his action proved he was of unsound mind, since he had always showed affection for the daughter before. The testament, dated Jan. 17, 1918, nine days before his death, left his \$10,000 estate to three other children.

**GERMANS FOR  
DEALING HERE.**

War Secrets Would Come to  
America First.

"No Funds Available" Cause  
of No Bargains.

Rival Powers Are Getting  
Their Share.

(BY GEORGE SELDES.)  
(BY CABLE—EXCLUSIVE DISPATCH.)  
BERLIN, March 7.—America  
has had the first option on every  
German secret, patent, plan, draw-  
ing, invention or model of the  
German submarines, which made  
Germany supreme under water,  
and which, according to the high-  
est entente naval officers, would  
have conquered England years  
before America entered the strug-  
gle had not politics kept Admiral  
Von Tirpitz from forcing the U-  
boat war.

America has nothing.

The Weser Werft Corporation in  
Bremer offers America today plans  
for a 2,500-ton submarine capable  
of cruising 10,000 miles, and  
slightly bigger and better than  
the best submarine built by them  
during the war. Geheimrat Flamm,  
the designer and constructor of the  
Deutschland, offers to build even  
larger ones. Numerous large ship-  
yards and many inventors prefer  
dealing with America, but—

America has nothing.

From the highest and most re-  
liable official sources I learn that  
Germany today is far superior to  
America in submarine construc-  
tion, and that while America does  
not possess a single 2,000-ton sub-  
marine, Germany has operated  
3,000 tonners, and also has suc-  
cessfully operated a steam sub-  
marine. For two years German  
inventors and engineers have been  
ready to give America the ad-  
vantages of their undersea ex-  
perience, assuring America suc-  
cessful ocean-going ships, while  
America does not possess any that  
are seaworthy.

These owners of plants and  
experienced builders all have re-  
ceived the same answer: "There  
is no money available." Further-  
more, it is added, that the Ameri-  
can Congress is cutting down its  
naval appropriations, instead of  
setting aside a fund for this pur-  
pose.

Concerning the German subma-  
rine plans delivered to the  
entente in accordance with the  
treaty, I learn that plans were  
given to Admiral Charlton, the  
British naval officer heading the  
disarmament commission. These  
plans were never given to America.  
I am informed that Admiral Char-  
lton declared the plans were not  
important, and were useful only  
for controlling the deliveries of  
naval material, and that he re-  
turned them to Germany.

However, it is a fact that to-  
day not only the old submarine  
plans, but up-to-date submarine  
plans are in the possession of pri-  
vate German constructors, who  
not able to use them for Germany,  
are seeking a market abroad.

Japan has not neglected its  
opportunity.

As an example of America's in-  
ability to get the most important  
war inventions because no money  
is available, might be cited the  
case of a German anti-aircraft gun  
invented during the last days of  
the war, and never used. This gun  
fired large shells repeatedly, there-  
by increasing enormously the  
chances of hitting speedy air-  
planes.

During one of Germany's pe-  
riodical revolutions one of these  
guns became private property and  
was offered to America for 10-  
000 marks (about \$100 then). It  
took weeks to get an answer from  
Washington, and the offer was  
declined owing to the lack of  
funds. Nevertheless the gun was  
sold to one of America's associated  
powers.

Regarding submarines, the op-  
portunity for America to get the  
best still exists, largely because  
Germany prefers to deal with  
America, rather than with En-  
gland and France, or even Japan,  
which the Germans highly regard  
as a former foe. Submarine plans  
are a drug on the market, and  
submarine engineers everywhere  
are looking for jobs because the  
treaty ends their usefulness.

It is the opinion here that  
America, despite its dispa-  
rate decisions, actually would  
save money and improve its naval  
strength by obtaining what it is  
entitled to as a war victor, or  
buying what the German market  
offers. America, say naval experts  
here, should engage the best con-  
structors and build a few, but  
real submarines.

Attempt to Rob Pay Car  
is Foiled by Quick Work  
of Those in Charge.

(BY A. P. NIGHT WIRE.)  
SAN FRANCISCO, March 7.—  
An attempt of five bandits to hold-  
up a pay car of the Ford Motor  
Company in which \$10,000 was be-  
ing carried from the Wells Fargo  
(Nev.) National Bank, to the Ford  
plant here, was frustrated late to-  
day when the car was suddenly  
speeded up, throwing one of the  
bandits from the running board.

The pay car had reached a  
crossing near the plant when the  
five bandits in another machine  
crowded it to the curb. One of the  
bandits drew his pistol and jumped  
on the running board of the pay  
car with an order to halt. Oliver  
Albright, bank messenger, who was  
riding in the pay car, ordered the  
chauffeur, Ralph Carlisle, to go  
full speed ahead.

Carlisle suddenly shot the car  
forward and the bandit was thrown  
to the pavement. There were no  
shots fired. Oliver Davis, an armed  
guard in the pay car, had been  
trained on the bandit, but Carlisle's  
quick work stopped any possible  
exchange of bullets.

REHEARING APPEAL.**

COMPANY SEEKING TO HAVE

SET ASIDE.

(BY A. P. NIGHT WIRE.)  
WASHINGTON, March 7.—The  
rehearing of the appeal of the  
Fleischmann Company, Inc., of  
New York, from orders of Prohi-  
bition Commissioner Haynes, re-  
voking its industrial alcohol per-  
mits, was adjourned tonight until  
tomorrow, after counsel for the  
company were understood to have  
denied charges upon which the or-  
ders were issued. The hearing was  
executive.

Internal Revenue Commissioner  
Blair, before whom the rehearing  
is being held, said the proceedings  
would probably be completed to-  
morrow. Pending the rehearing,  
the revocation orders have been  
suspended.

Industrial alcohol permits of the  
Fleischmann company were re-  
voked and orders for the seizure of  
alcohol in eleven of its branch  
agencies were issued Friday by  
Commissioner Haynes.

Grounds assigned for cancelling  
the permits were that the Fleis-  
chmann company had diverted non-  
beverage alcohol to beverage pur-  
poses, disposed of alcohol upon  
forfeited permits and without per-  
mits and otherwise failed to con-  
form to the National Prohibition  
Act.

BUDGET BUREAU  
WILL REPORT.Harding Orders Gen. Dawes  
to Enumerate Results.Congress to Get Details of  
Government Saving.Action Follows Resolution  
by Democratic Member.

(BY A. P. MURPHY.)  
WASHINGTON, March 7.—The Budget Bureau, acting at the direction of President Harding, is preparing for transmission to Chairman Madden of the House Appropriations Committee, "a detailed exposition of the economy achievements that have been effected since the budget system was inaugurated." It was announced today at the White House.

This is being done, it was explained, in response to a resolution of Representative Byrns of Tennessee, ranking Democratic member of the House Appropriations Committee, which asked the President, if not incompatible with the public interest, to inform the House in what way the savings had been made, from what particular appropriations and in what specific amounts.

**COMPLETE STATEMENT.**  
The President, in his letter, to Gen. Dawes, authorizing him to make the report, said he trusted that the statement would cover "the entire situation, thus obviating possible misconception which might arise from any partial or incomplete statement."  
"In view of the importance of having both Congress and the public understand clearly the operations of the budget bureau," the President added, "I desire you to give, wherever details are possible, not only a statement of such help as has been given, but also a statement of the amount in actual cash expenditures for the fiscal year ending June 30, 1922, as compared with the cash expenditures of the year ending June 30, 1921."

**DETAIL TRANSACTIONS.**  
"You should detail such transactions as have been consummated under executive and departmental initiatives, under the budget system, which have made unnecessary many requests for additional funds for expenditures during the current fiscal year, and have resulted in savings measurable in cash, and upon consideration of the transactions themselves."

"You should give an estimate of the indirect savings which are made apparent by the consideration of numerous transactions, which, though in the aggregate large, are difficult to estimate in cash. These indirect savings which I have in mind will include, for example:

"(a) The savings incident to a corrected system of purchasing which has been established in the government by which competition by the departments, and the overlapping and acquiring of unnecessary surplus, is avoided.

"(b) A better disposition, under a unified system, of surplus supplies held by the government.

"(c) More economical inter-departmental use generally of governmental facilities and supplies, arising from the inauguration of a system of co-ordination created by executive order.

"I will be glad if you will make this information available to the House of Congress at the earliest convenient day. You will take such time, however, as may be necessary to acquire definite information and make the fullest possible report."

**GEN. DAWES' REPLY.**  
Gen. Dawes, in his letter to the President, calling attention to the Byrns resolution, said "it may be well to call your attention to the fact that the premises to the resolution are so drawn that an impression might be created that the appropriations for deficiencies in the current year are inconsistent with the announced figure of the Budget Bureau, as to savings to be effected in the year's expenditures. This, of course, is not the case."

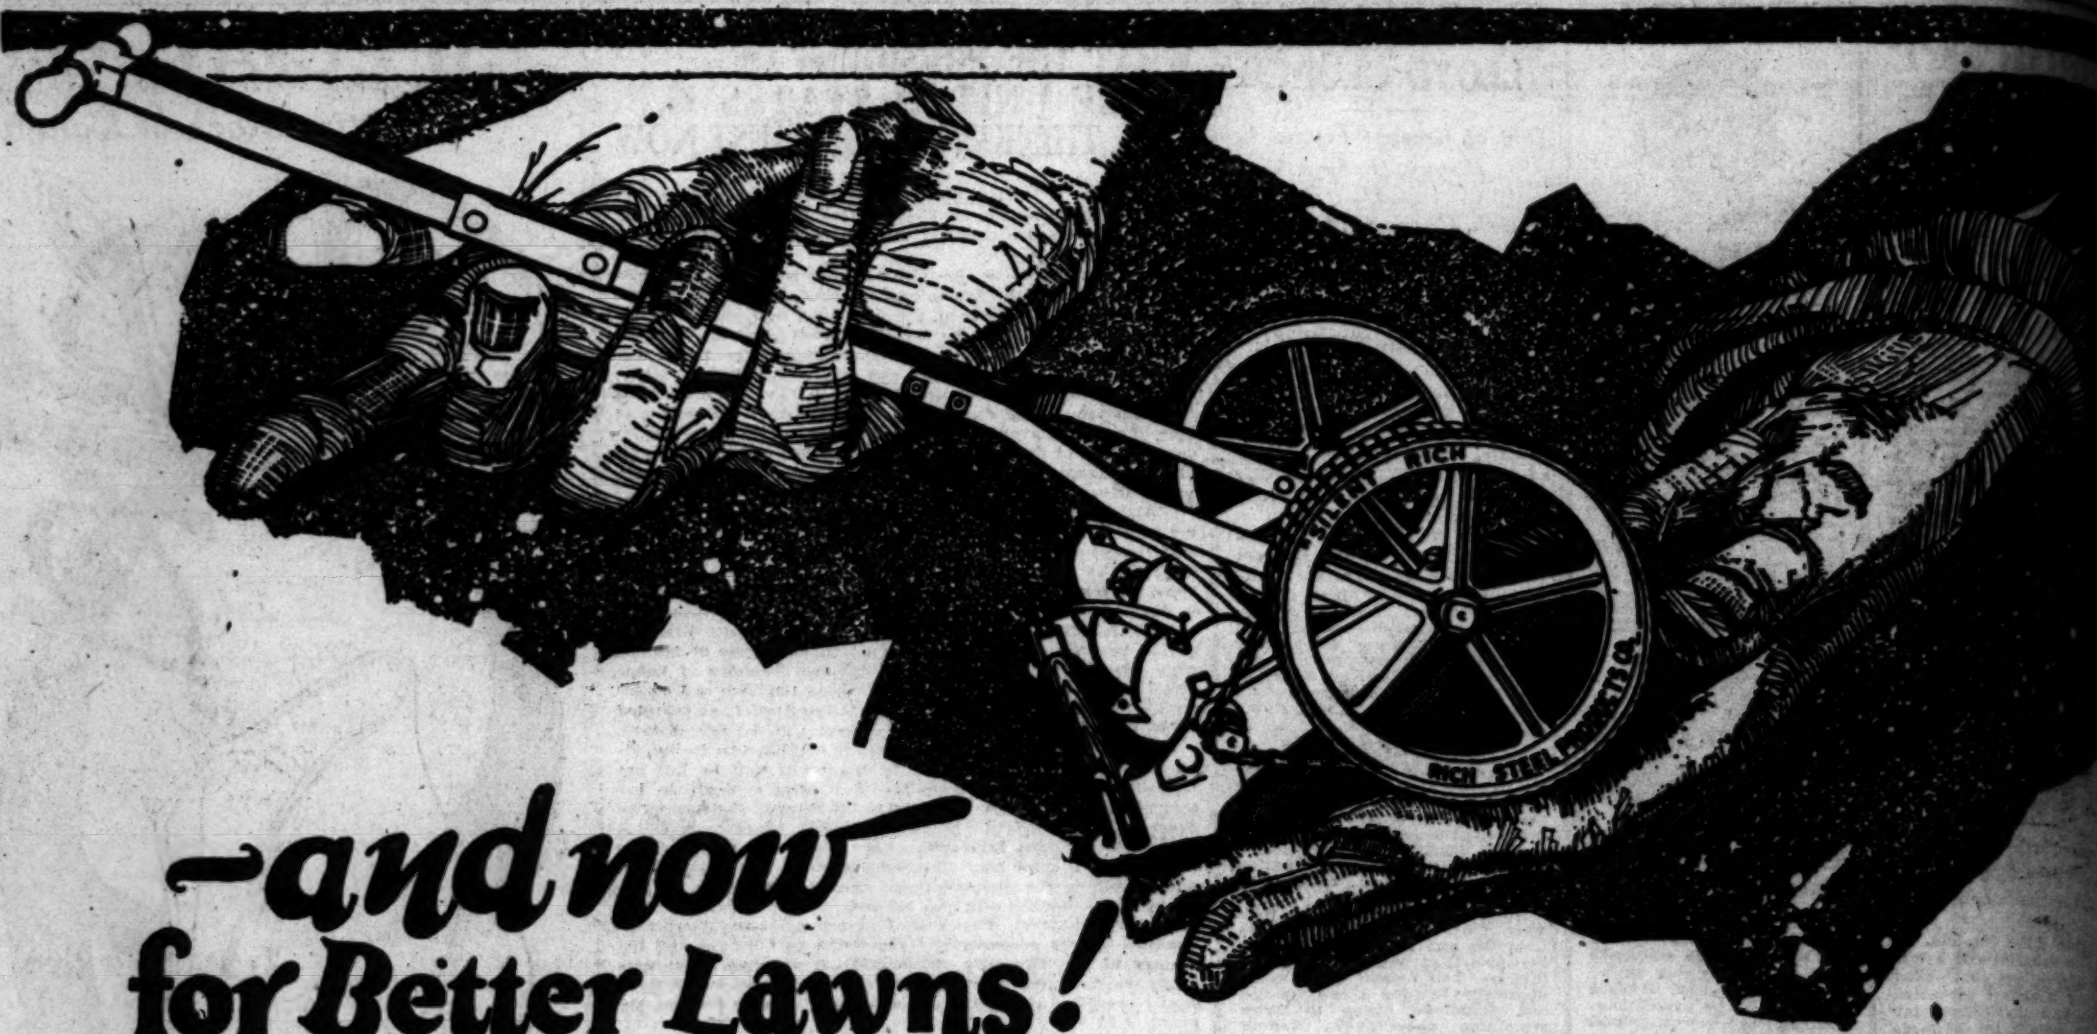

"In a business as large as that of the government no simple methods are to be determined what real savings are. We cannot take the appropriations made by Congress at the beginning of a fiscal year and then dismiss further consideration of the question of savings by regarding as the only savings any money remaining unexpended out of the appropriations and any money spent in excess of appropriations as something to be offset against them. Their cover only one of the many factors to be considered."

CHIEFWAY CHIEF MARRIED IN  
CHapel of NEW YORK  
CITY BUILDING.

(RELEVANT DISPATCH.)  
NEW YORK, March 7.—Chief Red Wing of the Ojibwa tribe of Chippewa Hills, Kan., was married in the chapel of the municipal building here yesterday to Miss Marion Stehlik, a designer and a native of Bohemia. Deputy City Clerk McCormick performed the ceremony. The Baroness Von Hildburghausen of Budapest was one of the witnesses.

Chief Red Wing wore correct afternoon attire. He gave his age as 36 and Miss Stehlik said she was 23. The Indian said his father was Chief Three Bull Bear and that his mother's name was Longwater. All this was regularly noted in the application for the license. Red Wing gave his business as "scientific and artistic manufacturing," and denied any connection with the production of the grape juice that bears his name. Miss Stehlik said she is a Bohemian from Bohemia and had been married before.

## -and now for Better Lawns!

Every householder can now have better, sightlier lawns  
—with less effort, quicker, and more satisfactory results!

Professional gardeners know that after seeding and rolling, the most important factor making for smooth, velvety lawns is *close cutting*. Close cutting produces strong, healthy grass roots, develops density of growth (better

sod), and influences more verdant coloration.

*Close cutting is absolutely essential.* No lawn mower ever built can cut *closer* to the ground — can cut as *quickly, evenly, or easily* as

## The New — Silent Rich LAWN MOWER

### High Speed! Close Cutting! Quiet!

Mechanically modern in every detail and scientifically constructed. No gears—no noise—easy to operate—cuts faster and better. No other lawn mower ever marketed operates as easily as the "Silent Rich."

Whether you have a mower or not, see the "Silent Rich" today. Note its handsome, business-like appearance. Compare its efficiency and high grade construction: its easy, silent operation, with any other machine. Observe carefully its simplicity and durability of construction.

Then you will know why the "Silent Rich" has jumped to the very forefront in popular demand—why it delivers a service satisfaction out of all proportion to its cost—and why it is eagerly bought even by those who already own costlier, old style mowers.

### Put your lawns right this season Use the "Silent Rich"

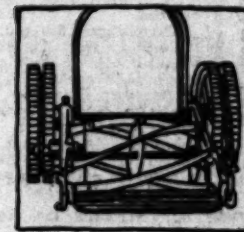

The demand for "Silent Rich" mowers necessitates the filling of orders according to priority. Place your order at once to insure earliest delivery. If your dealer does not carry the "Silent Rich," let us know and we will see that your needs are supplied.

Note These 9 Exclusive "Silent Rich" Advantages, Not Found in Any Other Machine

**Point One—Lightweight:** The "Silent Rich" weighs only about half as much as cast-iron mowers. Heavy enough to hold the ground—light enough not to break the sod. Easier handled. The aluminum side frames and wide Twin Tread wheels are stronger for their weight than cast iron.

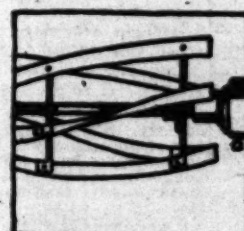

**Point Six—Close Cuts Any "Silent Rich" mower is heavier and cuts closer to the ground than any other mower. It is for cutting at any height down to within 1/2 of an inch above ground level.**

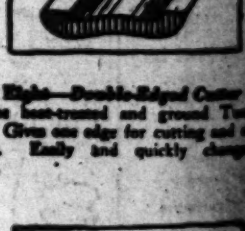

**Point Three—High Speed:** All "Silent Rich" mowers are high speed, fast cutting—geared 3 to 1. This is from three to four times greater cutting efficiency than is obtainable with any other type of mower. It enables the smallest size "Rich"—15 inches—to mow as great an area—and better—than is usually possible with other makes of 18 inch size.

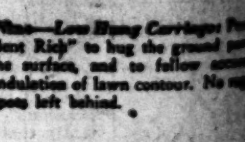

**Point Seven—Pull or Push:** The special handle bar of the "Silent Rich" permits cutting while pulling or pushing. From the thing for getting in under trees, bushes, or on terrace slopes. Automatically adjusts itself to height of operator. Runs as easy as a walking machine. Easily operated by children.

**Point Four—Flux Tungsten Steel Blades on every "Silent Rich":** the majority of low-priced mowers have but three, and of a quality that is not as durable, or less-cutting as Tungsten steel. Rich mower blades are so formed that their cutting cycles overlap—hence continuous cutting; no intervals. Not a blade of grass is missed; you cut a swath perfectly, with only one going over.

**Point Five—Roller Bearings:** Just like the best type of auto construction, "Silent Rich" wheels and cutter blade shafts are mounted on heat-treated roller bearings. Smoother, easier, quieter, with less wear. Bearings are packed in grease, insuring proper lubrication for a year and a half.

**Point Nine—Low Heavy Carriage:** The "Silent Rich" is built on the ground level with the surface, and so follows every undulation of lawn contour. No bumps, no jolts.

# Study These Smiles

The open smile comes from consciousness of pretty teeth.  
This new way of film removal has multiplied those smiles

Millions of people of some forty races are now cleaning teeth in a new way. Their dentists have advised its adoption; or they have made this test, seen the clear effects, and decided to always have them.

The results are seen everywhere. Dingy teeth now glisten because film-coats are removed. And men and women with those prettier-teeth smile in a way to show them.

This is to tell you of that method and offer a free test. To urge you to try it and watch the results. The use is delightful, the effects are convincing. Ten days will change your whole conception of clean teeth.

Send for this 10-Day Tube. Let someone in your family use it and show others what it does. Read in our book the reason for each new effect. Then decide for yourself between this new way and the old.

## All Teeth Film-Coated

Your teeth are coated with a viscous film. You can feel it with your tongue.

It is ever-present, ever-forming. It clings to teeth, gets between the teeth and stays. Old ways of brushing leave much of it intact. Then it often forms the basis for fixed coats.

### Film absorbs stains

That film absorbs stains, making the teeth look dingy. It is the film-coat that discolors, not the teeth. Film forms the basis of tartar.

That is why so many teeth are dim. A cloudy coat stays on them. Thus people lose a most conspicuous item in good looks.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of many other troubles, local and internal.

Most tooth troubles are now traced to film. Despite the tooth brush, those troubles have been constantly increasing. Very few escape them. Some, like pyorrhea, have become alarming in extent. And largely because we lacked ways to fight film.

### Now you can combat it

Dental science, after diligent research, has found two film combatants. Able authorities have proved their efficiency by many careful tests. Now leading dentists nearly all the world over are advising its daily use.

A new-type tooth paste has been created, based on modern requirements. Those two film combatants are embodied in it. So now twice daily, in your home, you can effectively fight film.

It means whiter, cleaner, safer teeth, new beauty, new protection. And millions of people know it.

This is to urge that you try this method—this dentifrice called Pepsodent. See and feel the results for a few days, then judge them for yourself.

## This Also Must Be Done

Pepsodent brings some other effects, based on newly-discovered facts.

Nature supplies the saliva with great tooth-protecting agents. But they depend on stimulation which should come from the diet. The average modern diet leaves them generally too weak.

One is a starch digestant. It is there to digest starch deposits on teeth which may otherwise remain and form acids.

The other is alkali. That is there to neutralize the acids which cause tooth decay.

### Multiplied protection

Pepsodent stimulates these forces. It multiplies the starch digestant in saliva, multiplies its alkalinity.

Twice a day it greatly increases these natural protective agents. Starch deposits and acids are combated with many-fold effect. The mouth is left after every use in alkaline condition. And starch deposits, night and day, are attacked by the starch digestant.

Teeth are also highly polished, so coats of all kinds less easily adhere.

### Where old ways failed

The old forms of tooth paste contained no effective film combatants. So film was left, between the teeth or on them, to threaten constant damage.

Then nearly all dentifrices heretofore have been based on soap and chalk. Modern research proves those factors detrimental. All those dentifrices reduce the starch digestant in saliva and reduce its alkalinity. They deprive the teeth of these essential agents.

That is one reason why the tooth brush has proved so inadequate. And that's a fault which Pepsodent corrects. What you see and feel and taste will quickly show you that this new way is correct.

The New-Day Dentifrice

A scientific tooth paste, made to comply with new dental requirements. Based on modern research, endorsed by modern authorities, and now advised by leading dentists everywhere. Each appli-

cation brings five effects which modern research proves to be essential. It combats the film, the starch deposits and the acids which dim and ruin teeth. All druggists supply the large tubes.

## For Beauty's Sake And for better teeth

Glistening teeth mean added beauty. Every woman owes them to herself.

Desire for beauty, above all else, causes millions to use Pepsodent. There is no excuse for dingy film on teeth.

Look at your teeth now, then after this ten-day test. The difference will amaze and delight you.

But children need Pepsodent most. Young teeth seem most affected by these film attacks. And children have most to lose. Very few children reach the age of 15 without some film-caused damage.

Dentists now advise that children use Pepsodent from the time the first tooth appears.

### Quick changes come

The Pepsodent effects are clear and convincing. Some of them are instant, all of them are quick. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

The book we send will explain all these effects. In a week you will realize that this new method means a new dental era.

Cut out the coupon so you won't forget.

Tour Half Million Acres of  
Reclaimed Land.

(EXCLUSIVE DISPATCH.)  
CALEXICO, March 7.—Bankers,  
railroad officials, capitalists, heads  
of the great produce distributing  
organizations, from Los Angeles,  
San Francisco, San Diego, Denver  
and elsewhere and representative  
growers, shippers and business  
men of the Imperial Valley, gathered  
yesterday in the 11,000-ton storage  
room of the Calexico plant of the  
Imperial Valley Ice and Develop-  
ment Company at the end of a  
tour of inspection from Brawley  
to the Mexican border. They were  
guests of the ice company.

The menu was made up of Im-  
perial Valley products exclusively.  
The cooking was done on electric  
ranges installed for the occasion by  
a famous chef from Mexico. The  
table was decorated with desert  
wildflowers and a Mexican  
orchestra furnished the music.  
Nearly 300 guests were served.  
The tables occupied on corner  
of the Imperial Valley plant  
to hold the 11,000-ton ice reserve  
needed at this point to take care  
of the perishable shipments from  
the valley at the height of the  
shipping season.

**PLANTS ENLARGED.**  
The Imperial Ice and Develop-

enlargement of three of its plants  
at Calexico, El Centro and Cale-  
xico at a cost of \$150,000, bringing  
their combined production up to  
200,000 tons annually, with storage  
facilities for 50,000 tons. The  
greater part of this output is used  
for long of the perishable vegetable  
shipments of the territory, which  
experts estimate will reach 20,000  
cars, valued at \$14,000,000, during  
1922.

The guests arrived at Brawley  
yesterday morning by special train  
from Los Angeles and by automo-  
bile from Riverside and other  
points outside, to help celebrate the  
formal opening of the plants and  
to make an inspection of the truck  
resources and transportation needs  
of the valley. The trip to the bor-

automobile with stops at the Apple-

Mrs. Douglas screamed and called  
loudly for help.

**WIFE'S SUIT  
LISTS MANY  
COMPLAINTS**

Husband Sought Other  
Women's Society, Says  
Divorce Complaint.

After eighteen years of married  
life, Mrs. Doris M. Ruppe filed suit  
for divorce yesterday from Louis  
E. Ruppe. She asks for \$1000 a  
month alimony and her share of  
the community property. Mrs.  
Ruppe complained through Atty.  
W. E. Lady, that her husband be-  
gan to seek the society of other  
women and he corresponded with  
some of them during their absence  
from their homes. When she  
remonstrated he threatened to  
leave her. When they were living  
in Vallejo, she said he locked her  
out of the house. He begged her  
to return, promising to do better,  
the complaint recites.

At their home in Ocean Park,  
she says, he threatened to shoot  
her and then made peace with her.  
During the fall of 1919, the  
complaint states, Mr. Ruppe "be-  
came enamored of Myrtle Marie  
Ruppe, a young widow, since re-  
married." He was found by others  
in her apartment "comfortably en-  
joying his sojourn with said per-  
son," the complaint states.

It was reported he explained his  
presence in the widow's rooms on  
the ground that he was making out  
the certificate that he, as the un-  
derwriter, had buried her husband,  
recently deceased. Mrs. Ruppe  
complains, however, that at the  
time there appeared on the widow's  
dresser a picture of Mr. Ruppe.

Another complaint against him  
is that he assisted his women  
friends financially without Mrs.  
Ruppe's knowledge or consent. He  
told his wife he had lost her and  
neglected her, she asserts.

Mrs. Ruppe is a member of the  
Monica Avenue Clubbing Com-  
pany. The business is said to be  
worth from \$75,000 to \$100,000.  
The receipts from the business for  
1921 were approximately \$25,000,  
the complaint states. The couple re-  
sided at 243 West Forty-second  
Place.

**FAITH IN FUTURE.**  
This means that here nearly one-  
third of the acreage comprised in  
the United States projects has been  
reclaimed without government aid  
at approximately one-tenth of the  
cost for a yearly crop production  
exceeding that of the whole twen-  
ty-five United States projects. The  
company here represented, Mr.  
West declared, had backed its faith  
in the future of the valley by put-  
ting its money into these plants  
which represent a "total" invest-  
ment of nearly \$12,000,000. Facts  
and figures from official reports  
showing the growth of the vege-  
table industry were given and the  
prediction made that this year's  
estimated shipment of 20,000 cars  
was but the beginning.

A motion picture of the truck-  
growing and shipping activities of  
the valley and of the ice plants  
that make marketing possible was  
shown for the first time. Among  
the notable guests who arrived by  
special train were W. J. Doran,

**Aren't you about tired  
of battery troubles?**

Why lessen your pleasure in motoring by  
putting up with battery troubles, when they  
are not necessary? Particularly, when a trouble-  
some battery costs more than a good one.

It is literally true that the least expensive  
battery is the best one you can buy. If there  
is any doubt in your mind about this, ask  
people who have Exides in their cars how long  
their batteries last, and if they get in trouble.

You will find plenty of people to ask, for  
more cars leave the manufacturers' hands  
equipped with Exides than with any other  
battery. Exide was the original starting and  
lighting battery for automobiles, just as it has  
been the pioneer in other industries since there  
was such a thing as a storage battery. You will  
find Exide Batteries in service for many years  
still doing active duty.

Don't put up with battery troubles when  
there is an Exide made for every car, at a  
near-by Exide Service Station.

**PROSECUTION'S MOVE FOR  
DISMISSAL OF CHARGE  
IS ORDERED.**

When Joseph E. Walsh, ac-  
cused of robbery, presented a per-  
fect alibi yesterday in Justice  
Baird's court, he was discharged.  
John Valli, of 1236 North Mari-  
posa street, testified that on Janu-  
ary 14, last, he and his house-  
keeper, Bonita Davis, were con-  
fronted by two hold-up men, who  
rang the door-bell and ordered  
them to hold up their hands. Valli  
testified that the two men made  
him and his housekeeper lay on  
the floor while they were bound  
hand and foot. He stated the two  
men then stole fifteen gallons of  
wine, three cases of whiskey and  
other liquor.

Later, at a dinner, Valli met  
the defendant and asserted he was  
the man who had committed the  
robbery. When the case came up  
for hearing the defendant pre-  
sented an alibi of such a nature  
that Dep. Dist. Atty. Castello made  
a motion that the charge be dis-  
missed and the court so ordered.

day. This organization is com-  
posed of passenger and ticket  
agents, representing the chief  
steam and electric railway and  
boat companies, who have of-  
fices in Southern California. There  
are about 225 members and the  
drive is designed to increase their  
number to 300. Andy R. Ander-  
son, the president, and Allen T.  
Smith, the secretary, announced  
that the 1922 calendar of the as-  
sociation is well filled with ex-  
cursions and entertainments.

SANTA MONICA, March 7.—  
Purchase of all available sands  
along the ocean front by the city  
is being advocated by the Santa  
Monica Realty Board. The board,  
which contends that the ocean  
frontage should be purchased for  
park purposes, has appointed a com-  
mittee consisting of C. D. Terry,  
W. J. Steadman, J. A. McHenry,  
W. W. Bennett, and Frank Bundy  
to urge the purchase. Purchase of  
the Lankershim and Mitchell hold-

**NO PROBATION.**

Santa Barbara Judge Adopts New  
Rule for Auto Thieves.

(EXCLUSIVE DISPATCH.)  
SANTA BARBARA, March 7.—  
Persons convicted of automobile  
theft in Santa Barbara county will  
be sent to the penitentiary; no  
probation of automobile thieves  
will be granted. This was the no-  
tice served on the fraternity today  
by Judge S. E. Crow in the Su-  
perior Court when he denied the  
application of Paul Vogas, auto-  
mobile thief, for probation and  
forthwith sentenced him to from  
one to ten years in San Quentin.  
Vogas had pleaded guilty and  
set up as excuse that he had never  
been convicted of wrong doing be-  
fore, that he was moneyless and  
urgent business necessitated a trip  
to Los Angeles.

"Automobile owners have a right  
to believe when they leave their  
machines on the streets in Santa  
Barbara county, or any other  
county, that their cars are safe,"  
said the court, in denying proba-  
tion, "and as far as streets of  
this county are concerned here-  
after any motor thief convicted  
of stealing an automobile shall go  
to the penitentiary. There shall be  
no more parries."

USE OF THE MAILS.**

EST A. P. WOOD WIRE.  
BAKERFIELD, Cal., March 7.—  
Charles Sam, Chinese, and Anna  
Brown, arrested Sunday on charges  
of violating the narcotic law, were  
brought before United States Com-  
missioner Edwin Owen today and  
charged with violating the United  
States postal laws by shipping  
drugs through the mails. J. D.  
Means, postal inspector, placed the  
new charge against the pair. Police  
found \$3000 worth of opium in  
Sam's possession, they said.

**MICHIGAN CHURCH IS

The First Methodist Church of  
Battle Creek, Mich., will benefit to  
the extent of \$2000 by the will of  
Harry W. Landreth, which was  
filed for probate yesterday in the  
Superior Court. The bequest was  
made because the deceased, who  
was the church in "loving memory" as  
the church of his mother and fa-  
ther, says the will.

Landreth, who died in Pasadena  
the 4th inst., left an estate valued  
at \$50,000. Most of the estate was  
bequeathed to relatives.

**Where Dollars Are Not Counted—but measured!**

Measured by the millions of barrels of oil that pour from fortune-making wells in that land of fabulous production—Mexico! The land where MEXIAN is drilling!

Where the sky line is black with derricks—her view shut off by monster oil containers—that is Mexico. And there, with a 25,000 Nussbaum oil well and a 25,000 barrel Dussenberg for neighbors, is that giant oil-producing organization—MEXIAN.

MEXIAN's wells are boring deeper and deeper into the earth—closer and closer to the oil-saturated treasure vaults of Mexico. A dozen Foster engineers—nine different drilling crews—causing crews—storage crews—field superintendents—are straining mind and muscle to reach that depth from which MEXIAN's millions come.

And MEXIAN will GET oil. Just the same as the other wells drilled in Mexico have gotten it. How much oil, our drillers can't tell. But going down to get it, they are!

Are you with us? Will you share in the millions that MEXIAN makes? Every MEXIAN investor will receive each thirty days, for each \$100 he invests, payment at the market price of oil for one barrel out of every 5000 barrels the MEXIAN Syndicate receives from all its 75 wells that its 695 acres will accommodate.

Smaller interests than that have made countless millions for other MEXIAN investors.

How much of MEXIAN's oil do you want? How big a check do you want to receive each thirty days?

The table and coupon, if used NOW, will decide.

**What Your Money Buys**

\$100 buys one Mexican unit—one barrel of oil out of each 5000 barrels the MEXIAN Syndicate receives from all its 75 wells that its 695 acres will accommodate.

\$200 buys two Mexican units—two barrels of oil out of each 5000 barrels the MEXIAN Syndicate receives from all its 75 wells that its 695 acres will accommodate.

\$300 buys three Mexican units—three barrels of oil out of each 5000 barrels the MEXIAN Syndicate receives from all its 75 wells that its 695 acres will accommodate.

\$400 buys four Mexican units—four barrels of oil out of each 5000 barrels the MEXIAN Syndicate receives from all its 75 wells that its 695 acres will accommodate.

\$500 buys five Mexican units—five barrels of oil out of each 5000 barrels the MEXIAN Syndicate receives from all its 75 wells that its 695 acres will accommodate.

\$900 buys nine Mexican units—nine barrels of oil out of each 5000 barrels the MEXIAN Syndicate receives from all its 75 wells that its 695 acres will accommodate.

\$1000 buys ten Mexican units—ten barrels of oil out of each 5000 barrels the MEXIAN Syndicate receives from all its 75 wells that its 695 acres will accommodate.

**NEW AUDITOR FOR MERCHANTS' BANK.**

R. H. Fulton has been appointed auditor of the Merchants' National Bank, according to an announcement made by the bank's board of directors yesterday.

Mr. Fulton is well known in Southern California business circles, having been engaged in important enterprises since coming to Los Angeles seven years ago. For several years he was associated with the Royal Bank of Canada in its Montreal and New York offices. He has six brothers in the banking business, one, John H. Fulton, being senior vice-president of the National City Bank of New York.

The auditorship office, to which Mr. Fulton is appointed, was vacated several weeks ago by the sudden death of G. W. Fishburn, brother of J. E. Fishburn, president of the bank.

We Have With Us Today Two Brand New Citizens.

## CITY WELCOMES NEW RESIDENTS.

Mr. and Mrs. McAdoe Are "Adopted" as Angelenos.

Former Secretary's Air Castle Materialized, He Says.

Famous Democrat Will Make Future Home Here.

Adoption papers for Mr. and Mrs. William Gibbs McAdoe were taken out by Mayor Cramer yesterday. The legal adoption took place at the Santa Fe Station at 1:15 p.m., with several hundred friends and acquaintances of the former Secretary of the Treasury and Director-General of Railways acting as witnesses.

Mr. McAdoe signified his intention to look for an office today and begin the practice of law in this city at once. He announced that the family intends to reside in a Hotel Huntington bungalow at Pasadena for the present and is undecided as to the location for the permanent home.

After shaking the glad hand of their own admirers and several hundred others who had assembled to greet Mary Pickford and Douglas Fairbanks, who were expected on the same train, but stopped off at Pasadena, Mr. and Mrs. McAdoe and their son Robert were whisked away to the Alexandria, where 3000 citizens converted them into thirty-third degree Westerners with neatness and dispatch.

**EXTEND WELCOME.**

The hotel lobby looked like the New York Polo Grounds at the opening of a world's series when Mr. McAdoe appeared with his radiant wife at the curve of the mezzanine balcony. Sylvester L. Weaver, acting as chairman of the reception committee, introduced Mayor Cramer, who, in the course of a short talk in which he spoke of the great move-to-Los Angeles impulse that is sweeping over the country, introduced Mr. and Mrs. McAdoe as the most recent arrivals.

After Mr. Weaver presented a great basket of California roses to Mrs. McAdoe, who is a daughter of ex-President Wilson, on behalf of the Chamber of Commerce, the former Secretary of the Treasury stepped forth and made his formal welcome as a citizen of Los Angeles. His subject was air castles, and the materialization thereof.

"Blessed Are They Who Are Able to Realize Their Expectations," was the title of his remarks.

He told of his first visit to this city and of their adoption in which the appearance and gracious West, far from the huddling of "Irish" suits, as words in that effect.

**CALL OF WEST.**

The desire grew and grew upon them, he said, until finally they cut their ties in the East and came to that they might be repaid by their many friends and associates.

## POLICE SEEK MOONSHINE MURDERERS

Slaying of Los Angeles Plumber is Charged to Bootleg Gangsters.

Two members of a bootleg clique believed by the Los Angeles police to be guilty of at least one murder are the objects of an energetic man hunt begun last night under direction of Capt. of Detectives Adams.

The known victim of their vicious attack was James Casey, a Los Angeles plumber, 34 years of age, who died last Sunday in the Receiving Hospital, where he was taken in a state of intoxication.

Knowledge regarding the murder case late yesterday afternoon when Anthony Sargento, A. F. Wagner discovered that Mr. Casey had received four crushing blows on the head any one of which might have caused death.

Immediately after receiving this report Capt. Adams assigned Detectives Cline and O'Brien upon the case and last night it was ascertained by these operatives that arrests might be expected at any hour. Both officers, believing their quarry to be desperate men, were prepared for battle at first encounter with the bootleggers.

The fact that the men sought are now free to roam the streets in condition of Mr. Casey when taken to the Receiving Hospital, fumes of moonshine whiskey were carried by the unconscious man's breath and he was treated for alcoholism. Death came a few hours after he was taken to the hospital.

The victim was taken to the hospital under the name of P. J. Moore early Sunday by Police Sgt. Post and Patrolman Mathias.

According to Sgt. Post he answered a call to a rooming house on a street near Broadway. He discovered Mr. Casey with two other men in a room where, according to the owner of the establishment, they had been drinking and quarreling. The other two occupants of the room were not taken into custody.

Until Sargento Wagner held an autopsy on the body in Overholster & Son undertaking establishment yesterday the authorities believed that Casey had died as the result of bootleg whiskey.

It is the theory of the police that the dead man was the victim of an organized gang of bootleggers who spot their prey by selling small quantities of liquor at low prices, and then, having induced the "come on" to purchase a larger amount of whiskey, to lure him to a room and there beat and rob him.

Several crimes of this nature which have not been cleared up may be traced to the two men now sought for the Casey murder, the police say.

## MIGHT HAPPEN TO ANY WIFE

Remarkable Adventures Told in "Fawn of Chance" in Sunday "Times."

Adventures that might befall any pretty young wife form the basis of Bertram Lebar's "A Fawn of Chance," which will run in The Times, beginning next Sunday, and continuing through the week, complete in seven installments. There is a thrill for every married man and woman, and for all others who love a swiftly moving mystery tale with a big, amazing finish. Don't fail to read the first installment.

## THIRD WIFE IS SOUGHT BY POLICE

Detectives Fail to Find Woman at Address Given in Kansas City Wire.

"We have Charles E. Fairbanks under arrest here. Has he a wife at 2108 Burlington street? He has one here with him and another one in Kansas City. Advise what you know about him."

This telegram was received late yesterday by the local police from Chief of Detectives S. W. Zickel of Wichita, Kan., and started Detectives Lloyd and Roberts on a hunt for the wife believed to be in this city.

After discovering that the address given in the telegram was correct, the detectives had overheard of Charles E. Fairbanks, the two detectives searched the city directory and telephone books, but with no better result.

Late last night, after a day spent in attempting to locate the third wife, the two officers gave up the search, but stated that if there is such a woman in the city they would like to see her at the Central Police Station.

## SEVEN HURT IN CRASH ON BEACH LINE

Santa Monica P. E. Car Hits Vineyard Coach on Sixteenth Street.

Seven persons were slightly injured and a score of others were badly shaken yesterday afternoon when two Pacific Electric cars crashed together at Sixteenth and Berendo streets. The injured were treated at the Receiving Hospital and then removed to their homes.

An open switch, according to officials who made an investigation, caused the accident.

The injured are:

Mrs. R. E. Zuer, 303 Bixel street; Mrs. H. H. Spangler, 510 Park street; J. C. Dalton of Pasadena; Mrs. A. M. Brain, 1440 Albany street; H. C. Wiles of Sawtelle; George Lindner, 102 South Broadway; and T. O. Earl, 1283 North Kingsley Drive. All of the injured were treated for cuts and bruises.

From what could be learned by the police an outboard Santa Monica car loaded with passengers crashed into a Vineyard and Hollywood car on a switch in Sixteenth near Berendo street. The beach car was in charge of Mortimer E. Edwards and Conductor L. C. Smith and the other car carried R. H. Gillett as motorman and J. K. Connors as conductor.

The Vineyard car, the police learned, was sidetracked to allow the other car to pass, but the beach train failed to go over the switch and crashed into the local train, for the accident was not fixed.

## Husband Made Her Target for Soap, She Says.

Denies Candidacy.

Mrs. Romana C. Orocco yesterday informed Judge Sumnerfield that John C. Orocco had thrown a cake of soap at her.

The soap hit her on the leg, she said.

The soap was thrown so swiftly that the contact denied it, she said.

Furthermore, her attorney introduced the cake of soap, dent and all, as evidence.

Mrs. Orocco wants a divorce.

## RUSH FOR PASSPORTS IN FEDERAL COURT.

There is a rush for passports at the office of the clerk of the United States District Court. The number issued has averaged more than twenty a day for the past week.

The great majority of applicants desire to visit Germany, which has just been opened to the free access of travelers. Russia, Turkey and Bulgaria are the only countries to which passports cannot now be had.

## HE WROTE WELL BUT UNWISELY

Hell hath no fury like a woman scorned," wrote the poet, and that the gentleman was correct was shown yesterday afternoon at the City Hall when Mrs. Myrtle Brenner took the witness stand before the Board of Police Commissioners, and what she said about former Patrolman Cyrus C. Johnson, would burn up the pages of a family newspaper.

Patrolman Johnson was for years the "poet laureate" of the police department, and he wooed and won her, she said, by his beautiful words. Then she discovered that he was a married man, so she admitted yesterday, she tried to kill herself at Venice. Then she told the Chief of Police about Mr. Johnson and the Chief discharged him.

After hearing the testimony all yesterday afternoon, the Board of Police Commissioners sustained the action of the Chief and Mr. Johnson is no longer a policeman.

Mrs. Brenner is somewhat of a poet herself, she said, and when Patrolman Johnson in his uniform and brass buttons mantered up to her, and said, "Hello-in-the-sky," and "laundry office and mumbled words of love, she was mightily cheered. She wrote letters to her patrolman-sweetheart, and some of them were read at yesterday's hearing.

"Before me now," she wrote in a letter dated Feb. 3, 1920, "are lying on the table your beautiful poems and writings. I have read them all. Each and every word is beautiful in itself. Your thoughts are truthful and pure. On, if the world could but see and understand! Within you there lies an ambition and a character of sterling excellence, which will demand recognition. You are a man who is faithful to your sense of right and duty. It is such a man as you who will fulfill Great Nature's Plan."

Then, she testified, she discovered that he was married. She wrote a letter to the Chief of Police giving notice of her intention to commit suicide, and asking that he should take care of her.

"In the same mail she sent him a second letter declaring that she was married, and that she cheer had but that it was useless. She said in this letter that Patrolman Johnson was an officer, a gentleman and a friend and truly worthy of honorable mention."

Her attempt at suicide being unsuccessful, Mrs. Brenner, instead of being despondent became angry and told her story to the Chief of Police, who promptly dismissed the case from the force. He asked for a hearing. Mrs. Brenner has kept right on his trail, however, and has appeared before the police board on several occasions to see that the policeman was not restored to his job.

The poet, who was a blacksmith before he became a policeman, was present at yesterday's hearing, but he and Mrs. Brenner did not glance at each other. He testified unemotionally, but firmly, saying, "She tried to co-erce me into marrying her."

## SERVICE MAN DEAD.

Former Policeman's Funeral to be Held Today.

Funeral services for George Bauer, soldier and formerly a policeman here, will be conducted today at 2:30 p.m., at the home of his friend, George Leslie Smith, 233 South St. Andrews Place. Burial will be in the crypts of the American Legion. Mr. Bauer died Monday at Banning. He contracted tuberculosis while serving with the American forces in Russia. He also served on the Mexican border. Mr. Bauer was born in 1886 in Munich, Germany.

## TO BE BURIED HERE.

Los Angeles Theatrical Man Dies in Phoenix.

Harry Siebert Smith, theatrical man of this city, and formerly manager of the Sonora Grand Opera Company, died Sunday at Phoenix, Ariz. It was learned here yesterday.

He leaves a widow, nee Barbara Fisher, a resident of this city, and two brothers, song composers of San Francisco.

Mr. Smith's body is being brought to Los Angeles for interment. Services are to be conducted at the Peck & Chase undertaking parlors.

Strong opposition to the 2 per cent companies is expressed in an exhaustive report rendered to Superintendent of Banks Dodge by his assistant, T. B. Sullivan.

Mr. Sullivan reported to Mr. Dodge that the companies violated, in his opinion, the State Banking Act, the building and loan laws and the Corporate—urities Act.

He said: "In view of the various conclusions reached I am firmly convinced that the responsibility for the suppression of the so-called 'Texas plan' companies rests upon Building and Loan Commissioner Walker, Superintendent of Banks Dodge the Corporation Commissioner and Atty-Gen. Webb. The question of the elimination of these organizations and the prevention of any activity by

## THREE PER CENT LOAN FIRMS ORDERED CLOSED.

Corporation Commissioner Acts to Curb Operations Under "Texas Plan."

A complete shutdown of all so-called 3 per cent loan companies operating in California was ordered yesterday by Corporation Commissioner Daugherty. His action was based on the terms of an opinion rendered by Atty-Gen. Webb. Mr. Daugherty's order, affecting more than a dozen 3 per cent, or "Texas-plan," companies, includes instructions to the companies not to resume activities until permission is granted by the Corporation Commissioner.

Several million dollars in contracts, it is estimated, have been written by the various companies since the original organization, the California Finance and Housing Company, began operations less than two months ago. E. C. Belows, former Corporation Commissioner, is president of the original company.

The various so-called loan companies, operating under trust agreements, have been conducting business without supervision by any one of the four or five State commissioners empowered to exercise authority over the established financial and business organizations in California, and it was only after several weeks of the most careful investigation and study by the State's legal officers that foundation was discovered for placing the companies under the jurisdiction of the Corporation Commissioner.

## PLAN INVESTIGATION.

Mr. Daugherty and his assistants will make a thorough investigation of the unusual financial methods of the 3 per cent companies and it is believed that rigid rules and regulations governing further activities of the companies in this State will be formulated before permission is given to resume business. An officer of one of the suspended companies expressed the opinion last night that less than a half dozen companies now organized will be able to meet requirements which he and his associates expect to be fixed by the Corporation Commissioner.

Companies affected by Mr. Daugherty's order, in addition to six or seven concerns that filed requests for permission to operate under agreement not to operate until such permission is given, follow:

Liberty Home Builders Organization, 308 Chambers Building, Kansas City, Mo.; Security Home Builders' Association, in care of F. R. McNamara, 431 Pacific Electric Building, California Mutual Finance Company, 442 South Spring Street, Southwestern Finance Association.

## MUST PAY FEES.

Should an individual apply for a loan of \$1000 he must pay the company a contract fee of \$10. He then pays \$10 a month until 15 cents of his contract is paid in, at which time he is eligible for a loan, providing sufficient funds have been paid in to meet the obligation. Due to the fact that the company takes for itself a 4 to 10 per cent of the total loan from the first money paid in, the applicant, for a loan of \$1000, finds himself credited with \$85 in addition to his "contract fee" of \$10. However, if he continues to meet his payments the 4 to 10 per cent taken by the company, or \$44, later is credited to him in the payment of his 3 per cent interest on the sum he borrows.

Statements widely vary as to when and how loan contracts are made, agents of the various companies asserting that maturity cannot be delayed longer than four years or four months, while opponents of the 3 per cent plan assert that under contracts now existing applicants for loans may be forced to wait at least eight years before obtaining a loan, and then only if ideal conditions exist.

## COMPANIES NOT LIABLE.

Regardless, however, of the status of the applicant it is provided by many of the "Texas plan" companies that officials of the company shall not be liable in any manner whatsoever for an accounting or for restitution of funds paid to the company.

In a specimen contract issued by the California Finance and Housing Company, the following occurs:

"It is expressly agreed that all payments made hereunder by the contract holder thereupon become the sole property of the California Finance and Housing Company, a trust, and that no such payment is received or held as a deposit."

"It is further stipulated that the contract holder expressly agrees that no personal liability hereunder of any description whatsoever shall attach to the trustees or the trustees or the beneficiaries of the trust instrument, whereby the California Finance and Housing Company, a trust, was created, and by the authority of which this contract is executed by the trustees and the contract holder shall look only to the funds and the property of the trust estate for payment or other recourse under this contract."

Strong opposition to the 2 per cent companies is expressed in an exhaustive report rendered to Superintendent of Banks Dodge by his assistant, T. B. Sullivan.

Mr. Sullivan reported to Mr. Dodge that the companies violated, in his opinion, the State Banking Act, the building and loan laws and the Corporate—urities Act.

He said: "In view of the various conclusions reached I am firmly convinced that the responsibility for the suppression of the so-called 'Texas plan' companies rests upon Building and Loan Commissioner Walker, Superintendent of Banks Dodge the Corporation Commissioner and Atty-Gen. How much should good suit cost?

When Lincoln was asked to settle a dispute about how long a man's legs should be, he said "Long enough to reach the ground."

In considering how much one should pay for a good suit, the common homely philosophy applies—just enough to get a good suit.

Just enough to get serviceable clothes, just enough to get the satisfying satisfaction of correct style, just enough to get the conscientious hand tailoring that puts the style in to stay.

In other words, just enough to get a Mullen and Bluett suit.

## ANNUAL HORSE SHOW PLANNED.

Event Scheduled for Four Days Next April.

Animals of All Classes to be Exhibited.

Committee Seeking Expert to Manage Affair.

Plans for the first annual horse show to be given under the auspices of the newly formed Southern California Horse Show Association are well under way. It was stated yesterday. The show will be held at the Ambassador April 12, 13, 14 and 15 and will include hunters, jumpers, polo ponies, harness horses in every class, and some of the most perfectly gaited horses in the United States.

The Southern California Horse Show Association was organized by men who are interested in promoting the breeding of fine horses. It is pointed out that they have banded themselves together for the expressed purpose of making Southern California a Mecca for horse lovers throughout the country.

The executive committee of the association includes Marco H. Hallman as chairman, and W. A. Alderson, Frank F. Barham, Fred H. Burke, J. B. Brown, Carleton F. Burke, Harry Chandler, Samuel T. Clover, Dr. Guy Cochran, Michael J. Connell, Cecil B. De Mille, Edward A. Dickson, William May Garland, Burton E. Green, Arthur Letta, George W. Lichtenberger, Neil S. McCarthy, Felix McGinnis, Lee A. Phillips, LeRoy Sanders, George C. Thomas, Jr., and G. O. Young.

Other committees are also working on details and expect to make definite report on their progress within the next few days. Those charged with choosing a manager are Fred H. Burke, Carleton F. Burke and George W. Lichtenberger. They have announced the decision as yet, but are seeking a man with experience in handling similar events.

The country is being combed for the most competent judges in every class while the actual handling of funds is in charge of Felix McGinnis as treasurer, Willis H. Brown as comptroller and Elmer A. Green as secretary of the executive committee.

More than 100 of those most prominently identified as lovers of horses will compose an advisory committee. Their names will be announced later.

## FUND FOR CHARITY.

The Southern California Horse Show Association has decided to turn over all the net proceeds of the horse show to the charities sponsored by the Assistance League of Los Angeles, which will make all disbursements subject to the approval of the executive committee of the association. It is the expressed desire of those in charge to see that the funds turned over to charity go to those institutions which at present are most in need of assistance. The Assistance League is at present assisting the Los Angeles Orphans' Home, Children's Hospital, Crippled Children's Guild, Castelar Creche, Pasadena Children's Training Society, Pasadena Dispensary and the Pasadena Day Nursery. Those who are in active charge of the Assistance League are Mrs. Harriet Banning, president; Mrs. Force Parker, vice-president; Mrs. Charles C. Perkins, vice-president; Mrs. Homer Laughlin, Jr., executive secretary, and Mr. D. C. MacWaters, treasurer.

## PUTS STOP TO "TEXAS PLAN."

(Continued from First Page.)

them suggests to me a very serious problem that can be discussed only and solved definitely by a concert of action of the four named.

Mr. Sullivan further comments in his report: "One of the very peculiar features of this inquiry is the fact that every one of the so-called contract loan companies has received from men high in authority, business integrity and financial responsibility the highest commendation. Companies that have met with disaster and have brought distress upon thousands of unwary investors have received during the progress of their life unqualified approval. This is explained because of the highly plausible profits of the tontine system. The first people who received full satisfaction are deeply grateful and the companies naturally obtained from them highly laudatory reports."

## WEBB GIVEN OPINION.

The opinion of Atty.-Gen. Webb, under which Mr. Daugherty proceeded to order the operations of the "Texas plan" companies, concludes as follows:

"That a concern writing contracts such as the one you have presented can, with safety to the public, be permitted to conduct such business without the State's supervision and control overburdens credulity and presses faith to the breaking point. If such concerns are to be permitted to operate among credulous investors, unrestrained and uncontrolled by the law which your department administers, the right to do so should be first declared by the courts."

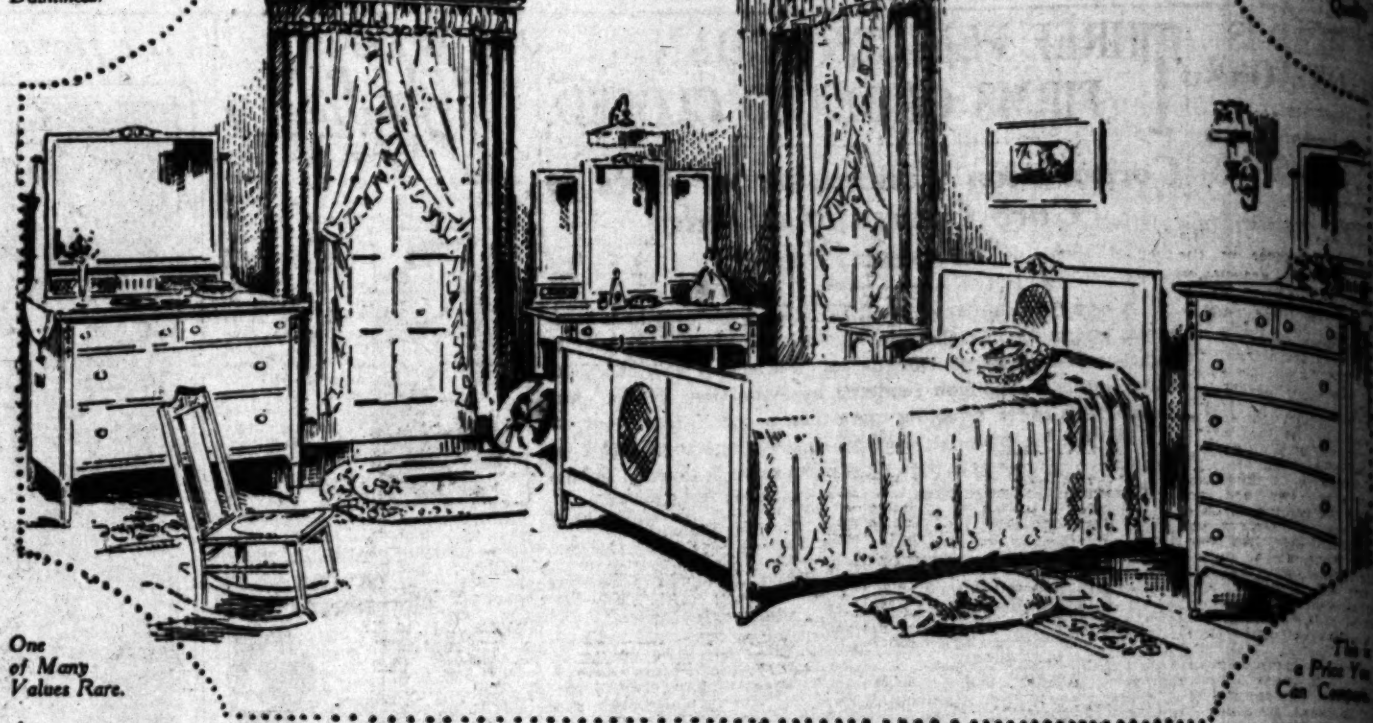

"It is my view that the facts and the law warrant the assumption of jurisdiction by your department."

## PARKING ACT DELAYED

Council Members Oppose Ordinance for Grand Avenue.

The City Council next Tuesday will consider the matter of instructing the City Attorney to prepare ordinances prohibiting the parking of vehicles at any time on Grand avenue between Fourth and Fifth streets and on Fifth street between Grand avenue and Olive street. These restrictions have been asked for because of the steep grade of Fifth street and of Grand avenue in this section. Because of opposition among several members of the council the rules could not be suspended yesterday and action was delayed one week.

## MARKET WEEK SPEEDS TRADE.

Los Angeles is Recognized as Apparel Center.

Hundred Buyers in City Tendered Dinner.

Trip Fares Refunded to Purchasers.

Representation of the leadership of the West as a center of wearing apparel manufacture is evidenced in the success of Market Week, conducted this week under the auspices of the Los Angeles Dry Goods Association. For this event, buyers from all parts of the West and West, estimated at 1500 by the association, are assembled in Los Angeles. Their three-day stay is brought to a close when the visiting buyers are entertained at a dinner and the Ambassador Hotel. The figures as to the number of buyers in town are not available, but the volume of sales by local wholesalers and manufacturers indicates that there may be in the city as during the Exposition. The event has been such a success that it is expected to become a semi-annual affair here. While Market Week will close this evening, it is expected that the majority of the buyers will remain here for the remainder of the week, in order to complete their purchases.

**REFUND FARES.** The Los Angeles Dry Goods Association has announced that it will refund the rail fares of the buyers in town who arrived in Los Angeles last August 15, 1921, and who have not yet received their refund. The refund is being made by the association, and the buyers who have not yet received their refund are asked to apply to the association for the refund. ### HUNTINGTON BEACH DROPS LOP-SIDED MEET TO OCCIDENTAL FROSH.

#### YEARLINGS TRIM PREPS BY HUGE MARGIN.

and Half-Mile Events Are Easy Pickings for Bill Kerr; Bad Nash Doesn't Run.

Huntington Beach's highly touted track performers failed very emphatically in their first local appearance, the freshmen cinder-pushers, letting them down on the half-mile and of an 85-to-30 count in a meet staged yesterday on the Tigers' oval. Bad Nash was out of the running of the half-mile, which accounts somewhat for the dropping of the Huntington Beach squad, but the Oxy yearlings came out as a new class and would undoubtedly have been up if Nash had participated.

#### FOOTHILL BOYS BOW TO CHICKS.

Pomona Freshmen Beat the Hollywood Preps on Track, 60 to 53.

(EXCLUSIVE DISPATCH.) CLAREMONT, March 7.—Coach Homer Chaney's Pomona College outfit pulled the unexpected here today when they went out and cleaned the Hollywood High School track team in a high-powered dual meet on Alumni Field. The score at the end of the afternoon's activities was 60 to 53, with the Sagehicks having possession of the major part of the markers. It was a great meet and the outcome was in doubt until the low hurdles and 220-yard dash. The Pomona team took first in both these events, this giving them the edge. Coach Chaney and Eugene Nixon are feeling pretty good over the showing of the Sagehicks. Hollywood, although not a collection of supermen, is a sturdy track aggregation, as Manual Aris and Los Angeles will testify. The Pomona team has some very promising material in the fresh outfit and unless there is an earthquake or something the Sagehicks track squad next year should be much stronger than the present varsity team. Homer Friable, frosh captain, proved to be the iron man of the afternoon.

The summary follows: Mile run—Schmidt (H.) beat, 10:15; Pomona (P.) second, 10:30. 800-yard dash—Schmidt (H.) beat, 2:15; Pomona (P.) second, 2:30. 440-yard dash—Schmidt (H.) beat, 1:15; Pomona (P.) second, 1:30. 220-yard dash—Schmidt (H.) beat, 1:15; # Stanford's Flattering Offer Lured Coach Warner From Pittsburg.

## PITT OFFICIAL EXPLAINS DEAL.

Pop Receives Double Amount Offered in East.

Demand \$10,000 to Coach Pennsylvanians.

Will Return Home Next Year to Build Team.

(SPECIAL DISPATCH.)  
PITTSBURG (Pa.) March 7.—His demands for a three-year contract at a salary of \$10,000 a year, plus expenses, the University of Pittsburg football team, refused. "Pop" Warner went to the Pacific Coast, and signed a contract with the Leland Stanford University calling for \$12,000 a year beginning in 1923.

According to Karl E. Davis, graduate manager of Pitt, Warner stopped here early last winter before leaving for the Coast and held a conference with members of the Pitt Athletic Council, during which matters concerning future contracts were discussed. Warner, it is said, asked for a three-year contract at the expiration of his present one, which expires in 1923, at a salary said to be \$10,000 a year.

This the Pitt authorities stated was next to impossible, owing to unsettled conditions regarding a playing field and other monetary obligations which cut heavily into the football revenue.

When the Pitt authorities frowned on the terms which Warner asked, they stated, according to Davis, that they would like to have first call on Warner's services at the expiration of his contract and in the meantime would try to come to some agreement as to the price.

"But Pop" just seemed to want a change of scenery," said Davis. "He's getting old and with the ailing offer of the California school in mind, wanted us to relieve him of his contract. This we refused to do, and Warner parted by stating he would come back here next year and try to keep up the reputation of the team and give Pitt as good a team as he had done in the past."

## SHIMMERING OASIS IN DESERT OF GOLF LITERATURE FOUND.

BY ALMA WHITTAKER.

Of course, golf has a vast literature, but it is mostly technical, mostly devoted to telling the ambitious how to do it, explaining how the champions do it, dissecting the niceties of the various shots, grips and stances, or recording the history of great matches.

Directly a fellow wins a national or an international event he sits down, pen in hand, tongue out, hair rumpled, and writes a book about his own methods and style. He almost has to, poor chap, it has become a sort of inviolable tradition. If you haven't written a book on how to play golf, you are not much of a champion. If you can't write one yourself, the next best thing is to hire a chap to write it for you and sign it yourself.

Or if the book or article isn't technical it is probably reminiscent. As they get older all golfers get mushily reminiscent. The trouble is that golf was only introduced into the United States in the latter time of most of the old-timers still on deck, so they can wax amiably historical—and never fail to claim all the pet golf stories of their youth, which are really nothing more than a dog with his club when it ran away with his ball, golf in Hades, frightful lies in the forks of trees, winning scornful converts to the game, etc., ad nauseum to themselves. It is quite harmless and golfers love to read 'em.

### ONE FICTION STORY.

Or there is the philosophical, allegorical stuff. Once in a way a golfer gets like that. Finds in golf a complete allegory of life, you know, the bunkers, traps, and the rough for the wicked or unwary, and virtue rewarded for he who keeps down the straight and narrow way and all that sort of thing. They just eat that sort of thing up. But when it comes to fiction—oh, law. There is really only one fiction story in golf, and the changes have been rung on that ad nauseum. The rivals, the golf tournament, frightful suspense—and the girl for the winner who wins his wife by a putt, by hook or by crook. Of course, Charlie Van Loan had just commenced to give us a decent bit of golf fiction literature, and those Saturday Evening Post stories stand forth as shining classics. But Charlie has passed on.

Now, however, we have P. G.

## PUBLIC ANGLING CLUB.

Rainbow Ranch, "the only place of its kind in the world," has been turned into a private angling club, announces Leigh G. Garney.

The organization in which some of the most prominent sportsmen in Southern California are members is now known as the Rainbow Angling Club. Many new features have been added to the club, the greatest being the natural stream fishing. In this hook, a limit of eastern brook and rainbow are guaranteed to be caught.

Another feature at the great resort is the fly fishing. Fly fishing is a hobby with some anglers the same as it is with gun-shooters with the hunters. Included in the membership is Frank H. Meilux, J. A. Nadeau, I. T. Barneson, William Llewellyn and Dave Llewellyn.

The stream that runs through the ranch has been cleared of overhanging branches, always a nuisance to the angler. It has been widened and deepened and 1500 gallons of water run each minute, assuring the members of a fighting trout. Wonderful picnic grounds have been added, where the proud fisherman can fry his own trout on big fireplaces.

great trouble with most golf literature is that it is written exclusively for golfers. And authors evidently regard golfers as having a taste for heavy reading. Any layman picking up the usual golf literature feels very much like a flapper trying to peruse a weighty definition to Einstein and his theories. But Wodehouse looks like lifting it out of the mire. More power to him—give us another.

## SPAIN ENTERS DAVIS CUP PLAY.

(BY A. P. NEWS WIRE.)

NEW YORK, March 7.—Spain entered the Davis cup lists today with the filing by cable of a challenge for the international team tennis championship trophy.

Spain was a newcomer in this competition last season. Drawn against British Isles in the first round the Spanish team played in Europe and lost.

The team's chances are more favorably regarded this year, however.

championships. At least, they can, if working harmoniously, hedge about a title-holder with safeguards unknown to the manly art of self-defense in more rugged days.

Commissions were conceived with the idea of keeping boxing clean and square. They have done some good work in this direction. And in addition, they appear to be making it safe.

But when worthy contenders are barred, boxing is stripped of every vestige of sportsmanship. It ceases to be a contest. What boxing fans of former days would have missed the great battles in which Peter Jackson, Georges Dixon, Joe Walcott, Joe Gans and Sam Langford engaged? They wrote some of the most illustrious chapters in ring history. Was there a thought of barring them? Yes, Langford was barred at one time by the Supervisors in San Francisco. That was because he fought too well. The Supervisors were frank about it. They said they were afraid he might kill one of his opponents and crab the game in California. They considered him unsafe. Is Wills unsafe? Are the commissions as frank as the Supervisors?

As for the Wills blow which is presumed to have knocked Norfolk out traveling only six inches, this estimate tends to put us in the Missouri class.

We have heard of many of these six-inch knockout punches, but while having seen scores of ring battles, will candidly admit being unable to solemnly swear that we ever saw one. We saw blows which in the excitement of the moment seemed to shoot only that far, but later in a calmer moment and a mind picture of the positions of the men and the actual point of starting the blow decided the distance was more nearly eighteen inches or two feet.

The speed of these punches is likely to dazzle your eyes and blind your judgment. When Langford and Flynn fought their return engagement at Vernon, after Sam had allowed Jim to stay the limit at Naud Junction, Langford in the sixth round directed a right uppercut into the pit of Flynn's stomach. The blow lifted the fireman clear from the floor and he fell flat on his face. My impression and that of probably every other man at the ringside was that this punch did not travel more than six or eight inches, and most of us wrote it down that way. Yet when you figure that Langford, a short man, brought the blow up from almost on a level with his hip, and Flynn was standing far enough away to fall clean when hit, even though Sam had moved in with the blow, the distance must have been more nearly eighteen inches or two feet.

I do not say that a man cannot be knocked out with a six-inch punch, especially when there is the forearm of a Wills behind it. But what appears to be a six-inch blow generally is delivered from a longer range.

the consomme medallion and the victory wreath for hot and cold victuals slip through his well-oiled knuckles.

The thing is to be settled in a match race between Silver and Boria. Conditions of the contest remain to be settled. Originally it was to have been an Australian pursuit race in which the two men would start from opposite ends of the menu and chase each other in circles, until one ate his way up to the other, or something busted. Silver, however, prefers to make it an obstacle race. This suits Boria, who says there is no pile of food large enough to offer him a real obstacle or interruption. In his day he has stormed and captured ramparts of rice pudding, single-handed scaled the slippery sides of a barbecued beef, hacked his way through the toughest restaurant steak and swum moats filled with hot country gravy.

### EASY FOR BUGS.

As an obstacle race looks too easy for Bugs, those in charge of the contest, who had favored a steeplechase match, starting from the north end of the dining-room with each table a hurdle, may decide on a lap race, in which each contestant will be allowed seven laps to every plate of soup. The gurgling gallop is barred.

Mrs. Mary Gardner is supplying the athletes with a well-balanced ration. "Swede" Johnson, newest backstop, and therefore standing fifth in the mess line, is our steady catcher. He was seen balancing green peas on the back of his spoon. It is difficult to conceive of a better-balanced ration except possibly balancing a spiral piece of wet spaghetti in upright position on the end of your nose. Owner Wrigley, accustomed to doing things in a big way in business, extends this largeness to baseball. He has his teams reaching from Catalina to Elsinore and they are both enjoying the best that the land affords, and he has only one wish. and that in every case in which he is charged with marrying a woman he was the vampire. He declares that he never won a woman in his life. "If I got married to them it was just because they decided to vamp me and went and did it," he asserts.

Although the specific charge against Bonner was that he violated the Mann White Slave Act by bringing Mabel Halverson from Fergus Falls, Minn., to San Diego and Los Angeles for an immoral purpose, it was said that after he was paroled from the Nebraska penitentiary, Jan. 1, 1919, that he married Miss Edna Howard of Grand Island, Neb.; at Calgary he is said to have taken as his wife Kathleen Guillette, a nurse, that was Feb. 17, 1921; less than a month later, March 16, he married Miss Mildred Jarvis, of Sandpoint, Idaho. During the girl in three days, it is asserted that he appeared seven days after that and married Miss Halverson, who was a school teacher at the time.

Before his arrest by the Federal authorities the defendant was in the clutches of the state authorities on charges of obtaining money under false pretenses, and it is asserted that he procured at least \$12,000. He denies this charge. "Love," he said, "is something that I know nothing about. There's only one woman I still have a deep regard for and that's mainly, I guess, because she cares for me. If a woman shows any affection for a man he simply can't help falling in love with her. I'm a sucker. Blondes are deceitful, cruel, immodest. The brunettes have the blondest hair every way. The blondes do not care a cent for a man except what he can give them."

OPTICIANS  
TO GATHER  
NEXT MAY

Arrangements Being Made for Great Convention of Eye Wizards Here.

One of the largest and most important gathering of optometrists and opticians west of the Rocky Mountains will convene in this city from May 29 until June 3, next. The first three days will be taken up with the annual meeting of the State Association of Optometrists. On the third day the Western Congress of Optometry will open. This congress will include representatives from all the Pacific Coast States and British Columbia, and will be devoted mainly to educational work, comprising lectures by a number of the foremost optometrists and scientific opticians in America.

During the entire meeting there will be an exhibition of optical instruments and appliances in the Auditorium Building expected to be one of the most elaborate ever seen in the West.

Prof. E. H. Armstrong of the College of Optometry will start next Friday, on a trip to include all optometric centers as far north as Vancouver, lecturing in each of these centers, explaining the purpose of the congress and the advantages of attendance. The Chamber of Commerce, the railroads and other organizations are actively co-operating with the optometric committees.

Swift Wooing Told in Fifty Dollar Suit.

Swift and ardent was the apparent wooing by E. J. Penypacker of Suzette Booth, it developed yesterday in Judge Wey's court. After being introduced to her, he is said to have stated that she was his ideal—the girl he was looking for.

Then came the eye-opener, she averred, as he proposed a trial marriage. Her response was startling, she testified, taking the form of a physical rebuff.

The plaintiff declared that on one occasion she gave Mr. Penypacker \$10 which he was to return in a few days. She says she gave her his L.O.U. When the loan was made, she says, she brought suit. The case was tried in the Small Claims Court, judgment given Penypacker and an appeal taken to the Superior Court.

Ground Grippers Save  
Many a Tortured Step

Every time the foot is brought to the ground the weight of the body spreads the foot.

If the shoe is unnatural in shape—the foot is squeezed and tortured, and discomfort results, and only too frequently malformation and serious foot troubles follow.

Ground Grippers prevent and remedy these serious consequences. They conform to the foot as Nature intended. They give but retain their shape. Thus plenty of room is provided for the foot to spread, and Ground Grippers spring back to their natural, good-looking shape as soon as the weight of the foot is lifted.

No more tortured steps if Ground Grippers are worn.

"College Kick," a modified Ground Gripper, is immensely popular with women who prefer a smart last combined with comfort.

ESCAPED OPERATIONS

Doctor Advised Use of Lydia E. Pinkham's Vegetable Compound

## Happy Results in Both Cases

St. Joseph, Missouri.—"Both of my sides swelled and hurt me so that I could not move or do any of my work. There was heavy pressure and pains through my lower organs and the doctor told me to try Lydia E. Pinkham's Vegetable Compound for these troubles. He said I had this one chance, and if the Vegetable Compound did not help me nothing but an operation would. After taking several bottles I felt it was helping me and now I am able to do my own work. If my testimonial will help others I shall be glad for them to read it and hope your Vegetable Compound will do them as much good as it did me."—Mrs. Wm. Lockman, 613 N. 4th St., St. Joseph, Mo.

White Plains, N. Y.—"I had such a pain that I could hardly walk and the doctor said that I needed an operation. I was sick for a year before I started taking your medicine and I could not work. I saw your advertisement in a little book and that is how I came to take Lydia E. Pinkham's medicine. I have been taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine, also.

Lydia E. Pinkham's Liver Pills and used Lydia E. Pinkham's Sensitive Wash and the capsules and prescription recommended. I am doing all my work and have gained twenty pounds. I am taking the medicine still, but I feel fine. You have my permission to use this letter for the good of others."—Mrs. MARY MARK, 37 Hamilton Ave., White Plains, N. Y.

Some female troubles may through neglect reach a stage when an operation is necessary. But most of the common ailments are not the surgical ones; they are not caused by serious displacements, tumors, or growths, although the symptoms may appear the same.

When disturbing ailments first appear, take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. Many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

## Activities and Plans of Women in Many Spheres.

## D.A.R. HEADS ENTERTAINED.

Interest in Campaign for Leadership is Shown.

Historian Brings "Trunk" of Hats in Suit Case.

Eschscholtz, Cabrillo Chapter Hosts.

BY MYRA NYE.

"I would rather see a contest for the office of chief executive of the Daughter of the American Revolution than the contest for President of the United States. It's a lot more exciting with something doing at every turn of the road in the race," said a woman resident of Washington, D. C., the other day in Los Angeles. "You see, in Washington we have a stupid habit of looking upon the President as a Mayor of the town. But the president-general of the D.A.R.—well that's different," she called them that name which is taboo at present in this city. It begins "Daughters of the Annual"—them—election.

Now, this city has a cross-section slice, as it were, of that contest of real, vim and vehemence which is recurring annually, like spring fever and yellow crocuses in April at the Continental Congress in Washington.

Mrs. Anthony Wayne Cook, one of the vice-president-generals, and Mrs. William N. Reynolds, chairman of international relations of the national society, are both candidates for the office of president-general and both spoke, one after the other, when the national and State officers were guests of Eschscholtz chapter yesterday at the Elbell clubhouse. They sat next to each other and were chatting together most happily. The only commandment either one of them was seen to disobey was the eleventh one: "Thou Shalt Not Get Found Out." They were found out by the audience, who were discovered to be excellent timber in the long-rolling contest. The sense of discrimination of California delegates to the nation held in 1932 will be taxed to the utmost, when they ballot.

"It is part of our duty as Daughters of the American Revolution to see that the red flag of anarchy is not carried to any part of our beloved country, to see to it that the tyranny of any one class is impossible and we must include in our program the protection of little children, and weaker womanhood where it is less fortunate. We are pledged to service that the freedom we boast may be more secure and just, and more glorious." This theme of lofty patriotism and service was amplified throughout Mrs. Cook's short address.

Mrs. Reynolds has for her background the constructive work she has accomplished as chairman of the national relations for two years. Yesterday she spoke informally and humorously with a droll ability for "darky stories" which there was only too short a time to hear.

## Efficient Housekeeping

By Laura A. Kirkman

The Housekeeper Who Takes Time to Read.

"I wish I had more time to read!" I often hear housekeepers say. "I haven't read a book in so long that I don't know who the modern writers are. I can't find time to read even the daily paper." Whenever I hear such a confession as this I always have a momentary fit of discouragement. For, the housekeeper who does not keep abreast of the times through reading, is not taking her housekeeping as a profession.

Have you ever known a professional who would afford to become a "back number" by not reading a doctor or a lawyer, for instance? Or have you ever known a successful business woman who could not give you a resume of the day's news without a paper before her? I haven't.

These professional people are personalities. They are "somebodies" and cannot afford to let the world catch them napping mentally. Their very success hangs on their being "live wires" and upon their ability to keep their own among other people of brains.

And that is the attitude the housekeeper should have. She, too, is a hard-working woman, and she should dignify her work by being a "live wire" herself. I know of a woman who lets her work fall from the professional class to the drudgery class of the household. I love to see a group of women discussing some important topic of the day, and see a housekeeper among them voicing her opinions and showing, by the keen light in her eyes, that she has made a study of the subject under discussion and finds enjoyment in exchanging opinions about it. There is a picture of the ideal housekeeper!

But let me tell you a little story. I visited Mrs. Cook's short address. Mrs. Reynolds has for her background the constructive work she has accomplished as chairman of the national relations for two years. Yesterday she spoke informally and humorously with a droll ability for "darky stories" which there was only too short a time to hear.

**HISTORIAN IS PLEASING.**  
Charming Miss Jenn Wrenn Coltrane, historian-general, has already captivated the entire circle of historians who have met her with her southern manner of speaking, her youth and her modern dress. She tells her friends as wide as she has brought across the continent to spend four days in Los Angeles. It is understood, sub rosa, that in this suit case she carries a box she has brought across the continent to spend four days in Los Angeles. It is understood, sub rosa, that in this suit case she carries a box she has brought across the continent to spend four days in Los Angeles.

Other speakers at the session of Eschscholtz were: Mrs. Livingston L. Hunter, Treasurer-General; Mrs. Oswald Harshbarger, State Regent; Mrs. Lyman Stoenke, State Vice-Regent, and Miss Thomas B. Stowell, Regent of the chapter, presiding.

Most appropriate was the music of the afternoon, when Gertrude Rose, a member, accompanied by Miss Alice Howell, sang three of Miss Rose's California compositions. Among them were old Spanish folk-songs which Mrs. Rose has arranged and harmonized after hearing some old Spanish senoras near Santa Barbara hum a tune for her and recite the words. They are still in manuscript, but they promise to be a valuable addition to the folk-lore of California.

**Cabrillo Chapter.**

At the home of Mrs. George E. Bent in Gramercy Place the visiting national and State officers were entertained yesterday for luncheon by the Cabrillo Chapter with the Regent, Mrs. William Anderson, presiding as toastmistress. At seven tables whose papers were of sheerest embroidery and drawn over Nile green silk the guests were seated. Bachelor buttons and candy tins arranged in spring baskets centered all the tables and huge bouquets of violets and maidenhair were at each place.

Mrs. Bent introduced Mrs. Anderson after welcoming the guests in the name of the chapter and Mrs. Anderson was delighted in her informal presentation. She then, Mrs. W. W. Sullivan, Vice-Regent, former State Regent, to drink a toast to the guests from an orange cup filled with California fruit juices. Mrs. Sullivan has known personally all of the presidents-general of the national society and her reminiscences were illuminating for those less fortunate while they brought fond memories to those who had shared Mrs. Sullivan's friendship with Mrs. Caroline Scott Harrison, wife of a former President of the United States; Mrs. Adlai Stevenson, Mrs. Charles Fairbanks, Mrs. George Maynard Minor, present president; Miss Sarah Hunter, Mrs. Hunter and Mrs. Coltrane were the other speakers.

**HUSBAND REFUSED TO SPEAK, CHARGES WIFE**

The old adage that it takes two to make a quarrel is apt in the case of Mrs. Rose Krystal Honig, for she says in a divorce suit filed yesterday in Judge Abraham Honig's court through Attorney L. Lee Bernstein, that since February 5, last, he has failed to speak to her. She says he would do nothing for her while she was sick with the influenza. She charges extreme cruelty.

**The Divorce Boom.**

## SOCIETY.

BY VIRGINIA WOODS.

To Bid Adieu.

To say farewell to Mrs. Daniel Murphy, who is so soon to leave for a tour of Europe, Mrs. Henry Stewart McKee presided at a charmingly appointed tea yesterday afternoon. The house and table were adorned with garden flowers.

Mrs. and Mr. Murphy and their daughter, Miss Bernadine Murphy, and Mrs. Murphy's sister, Miss Sue Slinott, will leave tomorrow for New York, from where they are to sail shortly afterwards. They expect to be gone a year and will probably leave Mrs. McKee abroad to finish her education. They will spend much time in England and on the continent. The family recently returned from their country place at Pebble Beach, which they have closed until their return.

**At Bridge Tea.**  
Mrs. Earl Webster Huntley, a bride and newcomer from St. Paul, Minn., was incentive for a little bridge tea at which Mrs. Alfred Hastings of West Twenty-fifth street was hostess yesterday. Mrs. Huntley is a very beautiful young woman and is being warmly received by Los Angeles society.

**Visit in Arizona.**  
Mrs. and Mr. Robert Irwin Rogers are in Catalina, Ariz., for a short visit, but will return this week.

**Betrothal Announced at Luncheon.**  
Miss Margaret Jensen of Spokane, who is spending the winter in Los Angeles, announced her betrothal to Dr. Reiba Smith, also of Spokane, at a luncheon yesterday at which there were plates for twelve.

Miss Jensen is the daughter of Mr. and Mrs. O. C. Jensen—her father being president of the Jensen, King, Byrd Company of Spokane. She is a graduate of Smith's College and with her parents has spent the past few winters in Los Angeles. Dr. Smith is a graduate of the University of Iowa. The betrothal ceremony will take place shortly after the wedding is scheduled to take place shortly after.

**To Honor Mrs. Cook.**  
As a courtesy to Mrs. Anthony Wayne Cook of Pittsburgh, Pa., vice-president of the General Federation of Daughters of the American Revolution, Mrs. Sloan Orcutt gave an elaborate arranged dinner party at the Ambassador last evening. There were plates for twelve.

**Hostess at Luncheon.**  
Mrs. Hugh Harrison of this city was hostess at a smart luncheon yesterday at the Hotel Vista del Arroyo in Pasadena, where she entertained a company of sixteen.

**To Give Bridge Luncheon.**  
Mrs. W. H. Fisher plans to have fifty guests at a bridge luncheon, which she is arranging for Friday at the Vista del Arroyo, Pasadena.

**Dinner Followed by Musical.**  
Miss Antoinette Zoellner of Windsor Boulevard, was hostess Sunday evening at an elaborate dinner party that was followed by a reception and musical given by the Zoellner Quartet.

Yellow and pink lilies, cosmos and other early bloomers decorated the table and decked the rest of the guests at the dinner. Miss Zoellner's guests were Misses Gertrude Cohen, Agnes Britt, Ruth Schaffer, Fanny Dillon, Alice Patton, Frieda Pyecke, Hortense Koepfli, Charles Keen, Fred Kupala, Charles Pollock, John Phillip, Herbert Cohen, Joseph Koepfli, Jr., Lohr Ludwig and Dr. I. Ferner. Seventy-five guests were at the reception.

**Prominent Visitors Return.**  
Mrs. J. S. Croft and her son, Mr. H. Matson and his daughter, Tim Matson and Miss Vivian Matson, who have been visiting in Pasadena, returned yesterday for their home in Victoria, B. C. They expected to stop en route at Santa Barbara. Mrs. Croft is accompanied by Mrs. Dunsmuir, whose father discovered the rich coal mines of Vancouver Island and for whom Dunsmuir, Cal., was named. Mrs. Matson's husband owns the Daily Colonist, a morning newspaper of that city.

**Miss Squier Weds in New York.**  
Friends of Miss Emma Lindsay-Squier, formerly Los Angeles newspaper woman, have received the announcement of her marriage in New York to George Mark, a prominent young broker of Jersey City, N. J. Although the wedding took place last Valentine's Day at the Little Church Around the Corner, friends here have just been advised of the fact. Miss Squier was once society editor of The Times and has been writing magazine stories in which she has been quite successful. She is the daughter of Mrs. Russell Squier, formerly of this city.

**Announced in New York.**  
Of interest here to friends of the bridegroom-elect is announcement of the engagement of Miss Mabel Irene Brown of Brooklyn, N. Y., and William R. Healey of Brooklyn, Mass. Mr. Healey served as lieutenant in the Army Air Service during the war and was stationed at Rome Field, Ariz., and he has many friends in Los Angeles and Pasadena. Miss Brown, who is a daughter of Mr. and Mrs. James H. Brown, was formerly a student at Adelphi College and is a member of Kappa Alpha Theta Fraternity.

**To Give Luncheon.**  
Mrs. Allan C. Balch plans to give a luncheon Friday followed by a large party at the Philharmonic concert.

**Mrs. Cass to Entertain.**  
Mrs. A. B. Cass has issued invitations for a luncheon at the Los Angeles Country Club on Friday.

**Mrs. Owen III.**  
Mrs. Frank D. Owen, who has been confined to her home the past week as the result of a very painful accident will be compelled to remain in bed several days longer.

No. 135.—Crossing a Handkerchief. A piece of paper is formed into a cone and secured by a pin. A few mystic passes are made and a silk handkerchief is drawn from the cone.

The piece of paper is really a double cone, pointed around the edges, and the handkerchief is sandwiched in between. The top side of the "pocket" is open. In forming the cone, the secret opening is widened and the handkerchief is drawn forth.

## Just Pump!

ONCE a month or so, stick your Dunn-Pen into the ink, and pump it full with the Little Red Pump-Handle. Don't bother to clean it—it does that for itself, automatically.

There's no rubber sac in the Dunn-Pen—that's why it holds several times more ink than any other self-filler of the same size. One man wrote 78,680 words by actual count, without refilling the Dunn-Pen. We have his affidavit.

The Dunn-Pen won't leak because it can't leak. Won't flood, clog, sputter or stutter. Four major parts—no valves or springs. No rubber sac to rot and crack.

So perfectly balanced—so smooth in action—it actually improves your penmanship. There is a Dunn-Pen to suit every writing hand; \$2.75 and up.

## Is my house in order?

Failure to set your house in order and to plan for the inevitable by making a Will may impose unnecessary hardship upon your wife at a time when sorrow makes her least able to endure any annoyance. It is a blemish on a man who has been well esteemed all his life for his wisdom and discretion to leave for his wife the settlement and management of a troubled estate.

By making your Will now and appointing this company as executor and trustee, you assure to your heirs the financial responsibility, training and experience of an institution skilled in estate and trust matters, and you make certain the proper carrying out of your expressed wishes.

## JURY TO TAKE UP FRAUD CASE.

Sale of Army Goods Will be Investigated.

Federal Inquisitors Will Hear Charges Friday.

Conspiracy to Prevent Bidding Reported.

As the result of the visit here of Col. Glenn E. Edgerton, director of sales for the Army, with headquarters at Washington, and Col. E. L. Phillips, chief inspector of the Ninth Army Corps Area, with headquarters at San Francisco, the Federal grand jury, it was stated yesterday, will take up Friday the frauds asserted to have been perpetrated at a sale of Army goods at San Diego. It is said \$1,000,000 worth of goods were sold at auction for \$145,000 as the result of collusion between Los Angeles dealers and the auctioneer.

Agents of the Department of Justice were in San Diego at the time of the sale, and say that by means of a dictaphone placed in a room at the U. S. Grant Hotel, details of asserted frauds were learned. Several Army officers have been mentioned in connection with the inquiry, but so far as information goes, the charge will be that the auctioneer and the Los Angeles merchants were the only members in the conspiracy. The dictaphone was placed in the room occupied by the asserted conspirators, it is alleged, and every word was carried to an adjoining chamber, where agents of the Department of Justice were stationed.

On the day of the sale large numbers of prospective purchasers gathered at the salesroom, but they did not have opportunity to buy anything, as the auctioneer only saw his fellow conspirators, and the goods were knocked off to them.

Many of these sales of government property left over after the war have taken place in various parts of the country, and in every instance the goods was knocked off at a very low price. It is believed that an investigation into the San Diego affair may lead to other sensational disclosures.

A dispatch last night from San Diego said two Army officers, one of them with field rank, and four Los Angeles business men would be arrested should indictments be returned by the grand jury here. The sale occurred February 26 and 27, last, at Camp Kearny. One of the government investigators is said to have run down a gang of Army goods swindlers at Detroit, and called the swindlers "the boys in the hotel at San Diego." The sale was attended by buyers from New York, Kansas City, points in Texas and elsewhere.

Weeks has forbidden delivery of the goods until the matter is investigated. It is said that some confessions have been made.

**CHARLIE CHAPLIN PROTESTS**

Doesn't Want Anyone to "Ape" His Mannerisms, so Opposes "Charlie Aplin."

Charlie Chaplin filed suit yesterday through Attorney Arthur M. Wright to restrain the Western Features Productions from producing two plays, now being advertised by illustrated circulars, with Charles Amador posing as "Charlie Aplin." The order to show cause will be heard by Judge Crall in Department 8 on the 17th inst., St. Patrick's Day.

Mr. Chaplin states in his complaint that by profession he is an author of scenarios, a producer and an actor of comedy motion pictures. He features certain ways and mannerisms, dress and facial expressions. He does not want them imitated for the purpose of deceiving theatergoers, the complaint states.

The complaint states that by reason of said fraudulent scheme to deceive the theater-going public and motion-picture exhibitors, circulars were sent broadcast last January showing pictures in different poses of Amador, endeavoring to imitate Mr. Chaplin.

**GOODCELL AT WORK COLLECTING REVENUE**

LESS THAN HALF INCOME TAX RETURNS HAVE BEEN FILED HERE.

Collector Goodcell yesterday took hold of the job of collecting the internal revenues in the local district. His office fixing room D. Chamber of Commerce Building, as a place where income tax returns can be filed up to March 15, has been greatly appreciated by the hundreds who avoided a trip to the Federal Building yesterday.

In spite of the fact that there has been a steady stream of income taxpayers at the office for the past ten days, it was stated yesterday that less than half the number have been turned in.

U. S. Dist. Judge Bledsoe administered the oath of office to the new collector. Judge Bledsoe served fourteen years on the Superior bench of San Bernardino county, and the collector has just retired after three years in the same position. Collector Goodcell was yesterday in receipt of a number of belated floral offerings. It is not likely there will be any changes in the office for a while.

**PETITIONS COURT TO ANNUL MARRIAGE.**

Mrs. Lola Pauline Ward, who yesterday sought an annulment of her marriage to John M. Ward, discovered after marriage that he had no intention of being a married man, she asserts. He did not perform the obligations of a husband, the complaint, filed through Fredericks & Hanna, states. She wants the marriage performed last December, annulled on the ground of fraud.

## "TABASCO" AGE FLAYED BY BISHOP.

Wealth and Power False Aims of Nations, Declares Prelate; Wants Home Life

"Rich and powerful as America is, she cannot last if wealth and temporal power are to be her ideals," declared Bishop Thomas of Wyoming, speaking at the Moose Theater yesterday at the noon Lenten meeting, which was attended by nearly 500 persons.

In his sermon on "The Overruling Hand of God as Discernible in the Great War," Bishop Thomas seriously questioned the continued domination of the white race and said that no nation can live that forgets God and fails to exemplify those fundamental principles of righteousness which are essential to national as well as individual character.

"Many nations have been given an opportunity to advance the kingdom of God on earth and have failed when they renounced spirituality for sensuality," said Bishop Thomas. "Greece, Rome, Spain, France, Scandinavia, Germany—each in turn has been given its chance and each, in time has fallen, has degenerated into selfishness, oppression and the lust for power."

"Today, with Russia broken on the wheel, with Austria in the hands of a receiver, Italy sullen and despondent, France impoverished, Germany hurt and Spain squinting in content upon past achievements, there is a great task of reconstruction, charity and teaching for the white race, a gigantic task for the Anglo-Saxons and for America. In particular, will America prove equal to the trust? America today stands the richest, most powerful nation on earth. She is wealthy in brain and blood, in money, in raw materials and manufactured articles."

"And yet, if power be our aim and wealth, what avail is our civilization, of what use this glorious land which has been guided by the hand of God to its present proud position? The world will not love us, does not love us for our power and wealth."

"The great institutions of our splendid country are the school, the church and the home, but we need not shut our eyes to the fact that they are in danger today. All they should be. The home is no longer the power that it was in former days. We have been using so much tobacco sauce and concentrated extracts that wholesome food no longer appeals to us. We seek excitement, abnormal pleasures, either in or outside the home, and the spirit of peace, of quiet contentment seems to have vanished from our lives."

**ABBOTT TRIAL FOR INSURANCE BEGINS.**

TRAGIC DEATHS IN AUTO TO BE RETOLD IN ACTION OVER POLICY.

The trial of the suit of Mrs. J. K. Abbott in Judge J. P. Wood's court yesterday to recover \$1000 from the Los Angeles Police Relief Association for the death of her husband, J. K. Abbott, a patrolman, revived memories of several tragic incidents.

Mr. Abbott, while riding with M. H. Smith, Denver millionaire, was killed when the automobile crashed into a granite monument in La Balle street, June 23, last. Mr. Smith also lost his life and Miss Jeannette Burneault, a guest in the car, was seriously injured. E. A. Fulton, secretary of the association, who received Mr. Abbott's initiation fee of \$1, killed himself at his home. The association declined to pay the benefits.

Mrs. Abbott demands the \$1000 benefits due her for the death of her husband on the ground that the \$1 fee entitled her husband to association membership. She is represented by Atty. Martin Forrest, who received Mr. Abbott's initiation fee of \$1, killed himself at his home. The association declined to pay the benefits.

Mr. Forrest counters with the contention that the association accepted the fee and gave Mr. Forrest a receipt, thereby recognizing him as a member and entitled to benefits.

**LEAVES MISSION PLAY.**

President E. K. Hoak Resigns After Three Years' Service.

After successfully engineering the destinies of the Mission Play for the past three years, and desiring to devote his entire time to his personal business, E. K. Hoak has disposed of his interest in the play, and resigned as president, treasurer and general manager.

When Mr. Hoak offered his assistance to John S. McCarty to reorganize and refinance the enterprise three years ago when it was heavily in debt, he did so with the feeling that the Mission Play should be preserved for Southern California, and equally between them they acquired practically all the capital stock.

William E. Hampton has been elected to fill the vacancy caused by Mr. Hoak's resignation. Mr. Hampton has financially supported the Mission Play since its beginning, and is the driving force behind the play, and is now under construction.

Failing to observe that his son, 3 years of age, had crawled beneath his automobile as the machine stood in the driveway in his residence at 2918 Fourth avenue yesterday afternoon, William D. Police surgeons say that the boy will recover.

## Don't Let That Cold Turn Into "Flu"

Rub Musterole on the Congested Parts

Grippe, "Flu," Pneumonia all start the same way—with a cold. All colds are congestion and Musterole is a simple counter-irritant which brings circulation back to normal and helps prevent serious developments.

Remember that messy old mustard plaster, how it stung and blistered! It did the work all right, but Oh, it was a stern measure! Musterole has all the healing properties of grandmother's pet remedy without the sting and blister.

Made of pure oil of mustard, camphor, menthol and other soothing ingredients, it has been used by physicians for years for treating "Flu," Lumbago, Grippe, Pleurisy, Rheumatism, Neuralgia, Headache and Pneumonia.

It was used in our training camps during the "Flu" epidemic a few years ago. The Y.M.C.A. sent thousands of jars to France for our soldiers over there.

### Make Your Own Gray Hair Remedy

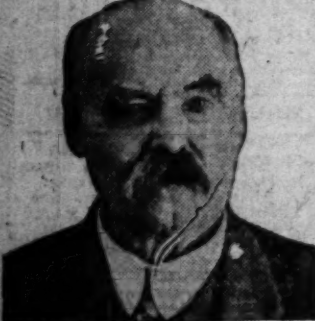

Mrs. A. Dixon, a well-known Brooklyn trained nurse, made the following statement regarding gray hair: "Streaked, faded or gray hair can be quickly turned black, brown or light brown, by the use of the following remedy that you can make at home:

"Merely get a box of Orfex powder at any drug store. It costs very little and no extra to buy. Dissolve it in 2 oz. of distilled or rain water, and comb it through the hair. Full directions for mixing and use and a gold bond guarantee come in each box. One box will last you for months.

"It is safe. It does not rub off, is not sticky or gummy, and leaves the hair fluffy. It will make a gray-haired person look twenty years younger."—[Advertisement.]

### STAR WITNESS HELPS DEFENSE.

#### Mrs. Obenchain's Courtship Experience Told.

#### Closest Friend of Accused Gives Testimony.

#### Stiff Legal Battle Wages Around Mrs. Wilson.

Mrs. M. Louise Wilson, closest friend of Mrs. Madalynne Obenchain, was principal witness yesterday at her trial for the murder of J. Belton Kennedy.

Mrs. Wilson acted as the confidant and go-between for Mrs. Obenchain and Mr. Kennedy during their courtship. Upon her the defense placed its greatest effort. Upon her, too, the prosecution bore its heaviest burden in its cross-examination.

It was during the morning session that the stiffest battle was waged. Time after time Judge R. H. Rush, defense counsel, attempted to secure testimony from Mrs. Wilson that would be vital to the case of Mrs. Obenchain. And each time he was rebuffed by the objections of the prosecution. Six questions in a row were objected to by Dep. Dist. Atty. Keyes and Fricks and six times did Judge R. H. Rush sustain the objections.

Not the least affected by the consistent ruling of the court not to admit certain facts, Mr. Rush kept on until, regardless of the fact that the court ruled inadmissible certain of Mrs. Wilson's statements, the evidence had been placed before the jury unofficially.

#### MANY LEGAL TITLS.

The objections on the part of the prosecution brought many legal titles between the counsel. First, Mr. Rush would argue a point and then on the next objection his associate, A. F. MacDonald, would arise and take up the cause.

The most interesting bit of play during the day came when Mrs. Wilson alluded to a feud among Mrs. Obenchain's acquaintances. It was in relation to Mrs. Mary Ballitt, the prosecution witness whose illness had kept her from testifying.

The State was endeavoring to learn why certain letters were given by Mrs. Wilson to a friend to keep. Mrs. Wilson's reply was emphatic and pointed.

"Why I believed that Mrs. Ballitt was a spy for the District Attorney's office and that if she knew about the letters she would run and tell everything. Just as fast as she got any news she peddled it," she told about these letters just as soon as she found out about them."

At the close of the day's testimony it was learned that Mrs. Obenchain will take the stand in her own defense Friday. That, it is said, will be the big moment of the trial.

### SUSTAINS MURDER VERDICT.

Word was received here yesterday that the State Supreme Court had denied the petition for a rehearing asked in behalf of Oscar Bowers, who was convicted of murder in the first degree, in the killing of McCullough Graydon at Venice over the rent of an apartment. Bowers was convicted by a jury in Judge McCormick's

trial. She will be preceded by her former husband, Ralph R. Obenchain. The attorneys say that from a sensational standpoint, it will be the banner day of the trial.

#### TELLS OF COURTSHIP.

The pursuit of Mrs. Obenchain by Mr. Kennedy was related by Mrs. Wilson during the morning session, when she told of countless telephone calls to Madalynne, of flowers, of candy, of letters, of telegrams. The questions put to her by Mr. Rush were constantly objected to by Mr. Keyes and Mr. Fricks. Each statement gained by the defense was met only after strenuous legal objections.

After considerable sparring by counsel for both sides Mrs. Wilson was permitted to tell of a telephone call she made to Mrs. Obenchain in San Francisco at the request of Mr. Kennedy. She said that she asked Madalynne at Belton's request to come to Los Angeles and not go to Honolulu, as she was intending.

During a period of the courtship, Mrs. Wilson testified, Mrs. Obenchain refused to have anything to do with Kennedy.

Mrs. Wilson then related incidents of the day of the murder. She told of hearing from Mrs. Obenchain, and of her engagement to meet each other in the Alexandria, at 7 p.m. She said that when Madalynne did not arrive she went to bed. At 1:30 the next morning, she stated, she was awakened by officers, and informed of the killing.

#### GOOD-BYE TELEGRAM.

To lay the fears of Belton's mother, Madalynne arranged to have the now famous "Good-bye forever" telegram sent from Chicago, according to Mrs. Wilson.

The witness testified that the telegram was sent to the Kennedy home, which she hoped by this ruse, Mrs. Wilson said, to convey to Mrs. Kennedy the fact that she had returned to Chicago and would have nothing to do with Belton again.

Following Mrs. Wilson's direct testimony and before she was cross-examined, Mrs. Eileen Sprague, telephone operator at the Alexandria, was called. Mrs. Sprague testified that during Mrs. Obenchain's stay at the hotel, a man, always the same, called each day by telephone.

Charles A. McCrossman was first witness of the day. He is assistant manager of the local office of the Postal Telegraph. He read from the company records a telegram sent by Kennedy to Mrs. Obenchain and signed "Duke." The

It has been stated by State witnesses that a man and a woman were seen in front of Kennedy's home on the afternoon of the slaying and that they were watching the house. One witness said that they watched the house between 12 and 1 o'clock and identified them as Mrs. Obenchain and Burch.

To refute this testimony the defense produced Fred W. Cowlin, assistant cashier of the Security Trust and Savings Bank and Miss M. P. Dunsmore, an attaché of the bank in the deposit vaults. Mr. Cowlin testified that Burch was in the bank at 12:30 when he was supposed to be pacing back and forth in front of Kennedy's house and Miss Dunsmore, stated that Mrs. Obenchain was in the vault at 1:30 when she was supposed to be on a street car near the Kennedy home.

The exact time of Burch's visit to the bank was ascertained by a telegram sent by the bank drawing on Burch's mother in Evanston. The time of Mrs. Obenchain's visit was set by a stamped card with her signature and the markings of a time clock.

### PUT SHIP STEWARD ON TRIAL.

General Court-martial is Ordered by Admiral in Stolen Goods Charge.

A general court-martial has been ordered by Admiral Eberle, commander-in-chief of the Pacific Fleet, in the case of Pedro Abdon, former cabin steward aboard the U.S.S. Alert at the Submarine Base, charged by the naval authorities with embezzling. The trial has been set for the 25th inst., at San Diego.

The court-martial grows out of the discovery by the police of the harbor division, late in January, of a plot said to have been engineered by several civilians in San Pedro, for molesting the government out of thousands of dollars in supplies. Abdon, it is charged, acted as the procurer, ordering, in his position of steward aboard the Alert, great quantities of supplies, ostensibly for that ship. Orders amounting to several hundred dollars were placed with harbor merchants and after delivery of the merchandise, Abdon and his accomplices, it is charged, removed the supplies to Los Angeles, where they are said to have disposed of them at a good profit.

Abdon specifically charged with embezzling \$730 worth of Navy stores in this manner. Police of the harbor have been asked by the naval authorities to locate Angelo Perez, who is wanted as a material witness at the court-martial.

### PIANO TEACHER DIES.

Miss Murray's Funeral to Be Held This Afternoon.

The body of Miss Geraldine Murray, a well-known piano teacher, who died yesterday at Duarte, where she had gone in an effort to regain her health, will be laid to rest today at 3 p.m., from Pierce Brothers' chapel. Miss Murray was 57 years of age. She was born in New Westminster, B. C., and came to Los Angeles twenty-three years ago. She attended Los Angeles High School and later became a music teacher.

### TO TAKE OVER UNION'S STOCK.

#### Last Minute for Stockholders to Act is Fixed.

#### March Twentieth at Mid- night is the Hour Set.

#### Won't Organize Unless There is a Majority Vote.

Midnight of March 20 was announced as the last moment at which stockholders of the Union Oil Company of California may join the holding company to be known as the "Union Oil Associates, Inc.," which is being organized to take over the stock of the Union and to fight foreign control, at least in so far as California is concerned.

Though it was stated yesterday that more than 40 per cent of the holders of stock of the Union Oil Company of California already have turned in their papers, two of the directors are on record as having stated that the holding company will not be organized unless it controls a safe working majority of the stock by March 20. It is asserted further that this attitude will be supported unanimously by the Union Oil Associates' directors, representing California interests.

The first for the control of the Union Oil Company of California, and the attempt to keep the management in the hands of the Union, is a long series of developments. The Union Oil Company of Delaware, of which the Shell Union is the successor, is in possession of some 27 per cent of the stock of the Union Oil Company of California, leaving approximately 73 per cent outside the Delaware ownership. Of this 73 per cent, about 10 per cent is held by people living outside California, and of the 63 per cent remaining, it is stated that the majority reside in Southern California. The majority of the stock is opposed to foreign control of their company, according to Isaac Milbank, one of the directors of the Union Oil Company of California, who said yesterday:

"This movement is purely constructive; we have no thought of any injury to anyone, but we do believe that the stockholders owning 73 per cent of the Union Oil Company in the Union Oil Company of California itself, are perfectly capable of taking care of themselves in their own way. They need no outside aid, nor do they need any guardian which they do not select themselves."

"We believe that it is wholly against the interests of the stockholders of any operating company with such vast resources as the Union Oil Company of California possesses, to be controlled as to policy by a marketing company, and their interests are anything but identical. In fact, it is probable that in many cases their interests would be entirely opposite."

### REBUILDING OF MISSION TO BE AIM.

#### Improvement of Brand Park to be Undertaken by New Organization.

An organization which will have for its aim the improvement of Brand Mission Park and the restoring of the San Fernando Mission will be formed at a meeting in Ramona Hall, next Friday evening. The association will be organized by the citizens' committee, composed of presidents of local social and civic societies, and by delegates from various clubs and societies of the Southland.

The San Fernando Mission Fiesta, scheduled to take place May 5, 6 and 7, promises to be one of the big events of the year and will usher in a permanent annual historic pageant that will be a distinctive part of our State and national history," said Mack Erwin, yesterday.

"There is as much romance, drama and historical interest connected with the San Fernando Mission as with that of any place in the civilized world that has served as an outpost of civilization. The old mission is fast becoming the shrine of common devotion for all people who love to look on historical wonderlands and cherish a message of the ages, and now that this mission is to become the permanent home for all relics and material objects of the early races, the preservation of the building and grounds becomes a matter of common interest."

At a meeting of citizens in Ramona parlors, for the purpose of furthering the May fiesta, it was pointed out that while Los Angeles and the Southland are well sold to every phase of commercialism, many of the finer features that would be of interest to visitors, have been overlooked.

### TO GRANT EXTENSIONS.

#### Land Office Decision Favors Oil Land Leaseholders.

Any of the more than 300 permittees in the Los Angeles district under the oil land leasing law, who have not been ready for one cause or another, to comply with the terms of the permit issued by the Department of the Interior, may get an extension of time, according to information received yesterday by Registrar Groves and Receiver Mitchell of the local Land Office. The extended time may run from one to three years.

It is necessary for them to file their plans with the department, and if they have not complied with the terms of the permit, and when they have arranged to begin exploration. It is understood that of all the permits taken, allowing exploration for oil in the local land district, but few wells have been sunk and these are located in what is known as the Painted Hill District, in Riverside county.

The extension of time will enable the present permittees to begin operations, or sell the claims to some ambitious prospectors.
